REGULAR MEETING – 6:30 P.M.

- 1a. CALL TO ORDER
- 1b. MOMENT OF SILENCE
- 1c. PLEDGE OF ALLEGIANCE
- 1d. ROLL CALL
- 1e. COUNCILMEMBER REPORTS AND UPDATES
- 1f. STAFF REPORTS

STUDY SESSION – YAMPA VALLEY REGIONAL AIRPORT EXPANSION PLANS

A. PUBLIC COMMENTS

Citizens are invited to speak to the Council on items that are not on the agenda. All individuals who desire to speak during public comments must sign in using the sheet available by the Town Clerk. There is a three-minute time limit per person, unless otherwise noted by the Mayor. Please note that no formal action will be taken on these items during this time due to the open meeting law provision; however, they may be placed on a future posted agenda if action is required.

B. PROCLAMATIONS/PRESENTATIONS –

- A. Resiliency Project Update: CU Boulder Capstone group presents the community engagement plan.
- B. NCIC Presentation: Commissioner Tim Redmond

C. CONSENT ITEMS

Consent agenda items are considered to be routine and will be considered for adoption by one motion. There will be no separate discussion of these items unless a Councilmember request to pull an item from the consent agenda.

- A. Consideration of minutes for the Regular Meeting of May 1, 2025 Page 3
- B. Consideration to approve payments dated May 2nd – May 12th, 2025 in the amount of \$185,048.63 Page 7

NOTICE: Agenda is subject to change. If you require special assistance in order to attend any of the Town's public meetings or events, please notify the Town of Hayden at (970) 276-3741 at least 48 hours in advance of the scheduled event so the necessary arrangements can be made.

- C. Consideration to approve payment approval dated May 14th, 2025 in the amount of \$112,427.41 Page 15
- D. Consideration to approve payment approval dated May 14th, 2025 Hayden Merc in the amount of \$3,710.33 Page 18

D. OLD BUSINESS – None

E. NEW BUSINESS

- A. Approve Construction Contract with Oldcastle SW Group, Inc. dba United Companies for the 2025 Hayden Paving Program Page 20
- B. Public Hearing: Conditional Use Permit application for the Explorist.Life Business application for three warehouse structures, RV parking with product testing and limited onsite occupancy, and all associated infrastructure and amenities to be located at Lot 12, Northwest Colorado Business Park F3. Page 33
- C. Review and Consideration of the Conditional Use Permit application for the Explorist.Life Business application for three warehouse structures, RV parking with product testing and limited onsite occupancy, and all associated infrastructure and amenities to be located at Lot 12, Northwest Colorado Business Park F3 Page 38

F. PULLED CONSENT ITEMS

G. STAFF AND COUNCILMEMBER REPORTS AND UPDATES (CONTINUED, IF NECESSARY)

H. EXECUTIVE SESSION - None

I. ADJOURNMENT

Hayden Town Council Regular Meeting May 1, 2025

Call to Order/Roll Call

Mayor Banks called the regular meeting of the Hayden Town Council to order at 6:02 p.m.

Mayor Banks Offered a moment of Silence

Mayor Banks Led the Pledge of Allegiance

Mayor Pro Tem Gann, Councilmembers Haight, Hicks, Carlson, and Hayden were present. Councilmember Bell was absent. Also present, were Assistant Town Manager/Community Development Director, Tegan Ebbert; Finance Director, Andrea Salazar, Town Clerk, Barbara Binetti; Public Works Director, Bryan Richards; Rhonda Sweetser, Director Parks and Recreation, and Chief Scott Scurlock. Town Manager Mathew Mendisco; Deputy Town Clerk, Christie Haight.

Councilmember Reports and Updates

Councilmember Bell had a discussion about the Peabody Twentymile Man Camp that Routt County is wanting to make have on permanent structures or have to be removed. Councilmember Bell asked if the Town owns any land that the Man Camp can be moved to. Tegan Ebbert responded that the Town does not have a Man Camp allowance in our building code in our Ordinances. Mathew Mendisco said that if it is acceptable to the Council, Staff will respond at the next meeting and try to advocate with the County.

Councilmember Gann attended the PUC meeting before the Town Council meeting and felt that from the comments, the wheels are in motion and the issues are in the hands of the State. Mathew stated he would speak to this in his update.

Study Session - none

Public Comment –

Tonya Gioia, 403 S. 3rd Street, came to cancel to talk about the animal ordinances and the parks. She said that looking at the park's information on the website, the information is incorrect and needs corrected. Also, she asked for a clear statement of the Dog Park free roaming status.

Eric Owen, 169A S. 4th Street, Eric wanted to make Council aware of May events at the schools. He especially wanted to point out that the Senior Capstone Projects would pre presented on May 6th from 6-7:30 p.m. and that Senior Graduation will be held on May 23rd at 6 p.m.

Proclamations and Presentations - none

Consent Agenda Items

- A. Consideration of minutes for the Regular Meeting of April 3, 2025
- B. Consideration to approve payments dated April 11, 2025, in the amount of \$187,771.45
- C. Consideration to appoint Daniel Buri to the Hayden Economic Development Commission

Councilmember Hicks moved and Councilmember Bell seconded. A roll call vote was held and the motion passed unanimously.

Items Removed from Consent Agenda There were none

Old Business - There was no Old Business

New Business There was no New Business

Pulled Consent Items There were none

Staff and Councilmember Reports and Updates

HAYDEN CENTER

Sarah Stinson, Director Arts and Events: Out on Leave until May 12th

Rhonda Sweetser, Director Parks and Recreation:

Hayden Center / Fitness:

Dodgeball Tournaments in June; Youth K-5: June 20th and Adults: June 21st – More details coming soon. 5 new classes starting the week of May 6th. Current membership is at 522. Numbers fluctuate slightly but remain consistently above 500. There was a special visit by Katie Maloney, Family & Consumer Science Specialist with CSU, who toured the Hayden Center with guests today. All were extremely impressed. There was also positive feedback also received from tonight's community meeting attendees

Hayden Parks & Recreation (HPR) coming up are:

Huck Finn Day Scheduled for June 7th at Third Street Park

Hayden Daze planning and coordination are actively underway

Youth Baseball practices start next week: 9-10 Baseball 11-12 Baseball, and Youth Softball. We are excited to have our first Fast Pitch 11-12 Softball team. There were not enough players for a 9-10 team. It is time for Fall Sports Recruitment. Flyers for Youth Soccer and Football are being sent out before school ends to boost enrollment

Arts & Recreation:

Paint & Sip was held last night. It was well attended and successful

POLICE

Scott Scurlock, Chief of Police:

- We sent OFC Baptist to a 3-day VIN inspection school. He is now one of two in the region who can do certified VIN inspections.
- Officers who are on the Routt County combined SWAT team participated in executing a search warrant in Oak Creek – everything went well.
- Officers participated in the interdiction day. The first half of the day was spent in and around Hayden. We had approximately ten officers/deputies from Hayden, Steamboat, Routt County, Craig, and Moffat County operating in Hayden, including undercover officers and three narcotic detection canines. We arrested one Hayden resident on a felony warrant – this individual was a target of the operation.
- Officers are attending active shooter training, last weekend and this, hosted by SSPD.
- We are working with Routt County Communications on a more "permanent temporary" dispatching center that will occupy a vacant office at HPD. An IGA was authorized by the town council around the first of the year. This will allow two full-time dispatchers to work out of HPD, which greatly helps recruitment and retention of emergency communicators. HPD would need more than ten officers

before we might need that room. It's projected that a new county building will be built near the airport in the next 7-10 years, and this center would move there. This is an excellent cooperation between Routt County and Hayden. Routt County already lets HPD "piggyback" off of their computer-aided dispatch servers, so this is a way we can return the favor.

PUBLIC WORKS

Bryan Richards, Public Works Director:

The Water department has been focused on curb stops. With the new VAC truck, we were able to already fix 16. In the past, it was typical to only get to 5. Great job! Also, a fire hydrant on Hawthorne that has been broke for approximately 10 years. With the river changing daily, we are having to keep the PH at the correct levels by adding chemicals. Back Flow device letters are being sent out. Thanks to Christie Haight for helping with that process.

The Parks department got a gate ordered for the dog park bridge. Andy Bennett has redone all of the baseball fields and replaced the batter boxes.

The Street department is almost finished with the street sweeping and replaced the planks on the bridge by the Community Garden.

Maintenance is being done at the Hayden Center to dig down and build a clean out that continues to have issues.

Public works continues to be very busy with many projects on line.

Mayor Banks asked about the status of all of the newly planted trees at the Dry Creek Park. Bryan said that the majority of the trees survived the winter.

PLANNING

Tegan Ebbert, Community Development Director:

Since there were questions as to how the annexation process works a few weeks ago, Tegan handed out some information as to what the annexation process is and how and why it works. She also explained the existing Hayden annexations and how they happened. She explained the "3-mile plan" which Hayden is mandated to have by State statute. Annexation is an expensive and time-consuming process.

ADMINISTRATION

Mathew Mendisco, Town Manager:

Mathew reported on the PUC meetings and what the Routt County Governments have asked of Excel Public Utilities of Colorado. At the meeting this afternoon there were some very interesting comments from our neighbors from the west advocating for all the funds for themselves. There is very targeted list of specific points that have been requested of Excel 10 years of property tax backfill at today's dollars, debt paid off for school district, fire district, and Town of Hayden (part of the \$89 million request), requested per the Town's master plan we would like to pursue the agreement with CMC. This plan would save the average tax payer approximately \$1300 a year and the average business approximately \$1600 a year on property taxes. We requested a \$10 million deposit for water/waste water expansion. We asked for a \$3million for the RTA and access to the freight rail-spur at the Hayden plan. We asked for the water rights if they have no use for them and for continued access at the water plant for public river access. In terms of process, we are in the public comment, then there will be cross examination of the written testimony by the PUC, then the response process by July 14th and then the expected ruling will be in August of 2025.

Barbara Binetti, Town Clerk. Nothing New to Report

Andrea Salazar, Finance Director: Nothing New to Report

Councilmember Reports and Comments:

Mayor Banks asked that the next Town Council meeting be moved to May 22nd from May 15th. This was agreed upon and will be held at the Hayden Center due to a conflict with another meeting in the Council Chambers at Town Hall.

Executive session: There was no Executive Session

Adjournment: Mayor Banks adjourned the meeting at 7:25 p.m.

Recorded by:

APPROVED THIS 22nd Day of May, 2025.

Ryan Banks, Mayor

Christie Haight, Deputy Town Clerk

Town of Hayden

Town Council Agenda Item

MEETING DATE: May 22, 2025

AGENDA ITEM TITLE: Approve Construction Contract with Oldcastle SW Group, Inc. dba United Companies for the 2025 Hayden Paving Program.

AGENDA SECTION: New Business

PRESENTED BY: Bryan Richards, Public Works Director

CAN THIS ITEM BE RESCHEDULED: Yes, but not recommended.

BACKGROUND REVIEW:

The Hayden 2025 Paving project Included includes:

A 2-inch mill and asphalt overlay from the intersection of Poplar Street and Highway 40, approximately 1000 ft south. Additionally, a 4-inch repaving of Washington Street from Poplar St. west to 150 ft to the bus barn. Work is scheduled to tentatively begin mid-June.

United Company was the bid winner in our competitive bid process, which received two proposals with a bid of \$156,646.00.

RECOMMENDATION: Move to approve the construction contract with Oldcastle SW Group, Inc. dba United Companies for the 2025 Hayden Paving Program.

MANAGER'S RECOMMENDATION/COMMENTS: *I concur with this recommendation*

TOWN OF HAYDEN CONSTRUCTION CONTRACT

2025 Hayden Paving Program

1. PARTIES.

This Construction Contract (the "Contract"), dated as of _____, 2025, is between the Town of Hayden, a Colorado home rule town (hereinafter called "Town") by and through its Town Council (hereinafter called "Council"), and Anson Excavation and Pipe (hereinafter called "Contractor"). For purposes of this Contract, the address of Town shall be P.O. Box 190, Hayden, Colorado 81639

For purposes of this Contract, the address of Contractor shall be:

Oldcastle SW Group, Inc. dba United Companies
2273 River Road
Grand Junction, CO 81505

2. WORK TO BE DONE BY CONTRACTOR.

The Work to be done by Contractor is detailed in the Contract Documents and itemized in the Bid Form, Section of those Contract Documents.

As used herein, the term "Project Administrator" shall refer to such person as the Council may, from time to time, designate as Town's representative. The Project Administrator for this project shall be the Public Works Director, Bryan Richards. Any changes in the designation of the Project Administrator shall be made in writing signed by the Town Manager and sent to Contractor at the address set forth in Section 1 above by U.S. Mail, first-class postage prepaid. It is intended, and hereby permitted, that the Project Administrator may delegate the responsibility for inspecting the work on the Project to other Town employees and agents but only the Project Administrator shall have the right and power to accept or reject work or materials on the Project or otherwise exercise the discretion of the Project Administrator provided for herein. For the purposes of this contract, the designated agents will be, Bryan Richards Public Works Director, Town of Hayden.

3. SCOPE OF WORK.

Contractor shall furnish all of the necessary supervision, materials, tools and supplies and perform all of the labor and other services necessary to complete the work set forth in the Contract Documents which is and referred to herein as the "Project."

All workmen shall be competent and have sufficient skill, knowledge and experience in their class of work and operation of equipment, to perform all work properly and satisfactorily.

Contractor agrees to do the work in a first class, substantial and workmanlike manner to the satisfaction of Town in strict accordance with the provisions of the Contract Documents.

The Project for which the Work under the Contract Documents may be the whole or only a part is generally described as follows:

2025 Hayden Paving Program

4. TIME OF COMPLETION.

Contractor shall commence the work required by the Contract Documents within ten (10) days of receipt of the Notice to Proceed and shall achieve Substantial Completion of the Project by August 5th, 2025. The Project shall be complete and ready for final payment within 45 days after Substantial Completion of the Project. Contractor agrees that the completion of the Project within the time as set forth herein is of the essence and agrees to proceed with due diligence, taking all precautions and making all necessary arrangements to ensure the completion of the work within the prescribed time period.

If Contractor refuses or fails to prosecute the work, or any separable part thereof, with such diligence as will ensure its completion within the time specified in this Contract, or any extension thereof, or fails to complete said work within such time, Town may, by written notice to Contractor, terminate his right to proceed with the work or such part of the work as to which there has been a delay. In such event, Town may take over the work and prosecute the same to completion, by contract or otherwise, and may take possession of and use any or all materials, appliances and plant as may be on the site of the work and necessary therefor.

Contractor's right to proceed shall not be so terminated nor Contractor charged with resulting damage if Contractor is delayed at any time in the progress of the work by any negligent act of Town, Town employee or agent, or by changes ordered in the work, or by strikes, lock-outs, fire, unusual delay in transportation, unavoidable casualties or other causes beyond Contractor's control. Inability to purchase the required materials listed in Contractor's Proposal shall not be considered to be "beyond Contractor's control."

If delay is due to a cause beyond Contractor's control, the time of completion of the work shall be extended for a period equal to such portion of the period of delay as Contractor shall be able to show he could not have avoided by exercise of due diligence; provided, however, that in no event shall the time for Contractor's completion of the Project be extended beyond August 5th, 2025. Contractor shall advise Town in writing within three (3) days from the beginning of such delay and shall file a written claim for an extension of time within seven (7) days after the period of delay has ceased.

Contractor and Town recognize that time is of the essence as stated in above and that Owner will suffer financial loss if the Work is not completed within the times specified above, plus any extensions thereof allowed. The parties also recognize the delays, expense, and difficulties involved in proving in a legal or arbitration proceeding the actual loss suffered by Town if the Work is not completed on time. Accordingly, instead of requiring any such proof, Town and Contractor agree that as liquidated damages for delay (but not as a penalty), Contractor shall pay Town \$1,500 for each day that expires after the time specified above for Substantial Completion until the Work is substantially complete. After Substantial Completion, if Contractor shall neglect, refuse, or fail to complete the remaining Work within the Contract Time or any proper extension thereof granted by Town, Contractor shall pay Town \$1,500 for each day that expires after the time specified above for completion and readiness for final payment until the Work is completed and ready for final payment.

5. COMPENSATION.

As consideration for the completion of the Project as required by the Contract Documents, Town shall pay to Contractor the sum of \$156,646.00 which amount shall be payable as follows:

5.1. Progress payments shall be made upon application of Contractor to be made not more frequently than every month during the Project. Payments shall be based upon the cost of labor and materials incorporated in the Project and materials suitably stored on the site as estimated by Contractor and approved by the Project Administrator.

Progress payments will be made in an amount equal to the percentage indicated below but, in each case, less the aggregate of payments previously made and less such amounts as Engineer may determine or Town may withhold, including but not limited to liquidated damages.

- a. 95 percent of Work completed (with the balance being retainage).
- b. 95 percent of cost of materials and equipment not incorporated in the Work (with the balance being retainage).

5.2. At the time of an application for a progress payment, Contractor shall submit to the Project Administrator an itemized statement supported by receipts or vouchers showing payment for materials, labor and subcontracts; a description of the work completed; and Contractor's estimate of the percentage of completion of the Project represented by the payment application.

5.3. Within Thirty (30) days after receiving a complete application for progress payment and all required supportive information, Town shall pay to Contractor ninety-five percent (95%) of the amount shown in the application and approved by the Project Administrator. The remaining five percent (5%) shall be paid upon the issuance of the Certificate of Completion, and after advertisement of final payment required by C.R.S. § 38-26-107 has been published and all applicable time periods under C.R.S. § 38-26-107 have expired.

5.4. If materials stored at the Project site are paid for by Town, title to such materials shall vest in Town. If such materials are stolen, lost or damaged before their incorporation into the Project, they shall be replaced at Contractor's sole expense.

6. IMMIGRATION COMPLIANCE.

Pursuant to House Bill 1343 and to Section 8-17.5-101, C.R.S., et seq., "Contractor" warrants, represents, acknowledges, and agrees that:

The Contractor shall not knowingly employ or contract with an illegal alien to perform work under this contract nor contract with any subcontractor that fails to certify to the Contractor that the subcontractor shall not knowingly employ or contract with an illegal alien to perform work under this contract.

The Contractor has verified or attempted to verify through participation in the E-Verify Program that the Contractor does not employ any illegal aliens. (For the purpose of this paragraph, "E-Verify Program" is defined to mean the employment verification program created in Public Law 208, 104th Congress, as amended, and expanded in Public Law 156, 108th Congress, as amended, that is administered by the United States Department of Homeland Security). If the Contractor is not accepted into the E-Verify Program prior to executing this contract, the Consultant shall apply to participate in the E-Verify Program every three months until the Contractor is accepted or this contract has been completed, whichever is earlier. The Contractor shall not use the E-Verify Program procedures to undertake pre-employment screening of job applicants while this contract is being performed. This paragraph shall not be effective if the E-Verify Program is discontinued.

If the Contractor obtains actual knowledge that a subcontractor performing work under this contract knowingly employs or contracts with an illegal alien, the consultant shall notify the subcontractor and the Town within three days that the Contractor has actual knowledge that the subcontractor is employing or contracting with an illegal alien; and terminate the subcontract with the subcontractor if within three days of receiving the notice required pursuant to this paragraph, the subcontractor does not stop employing or contracting with the illegal alien. The Contractor shall not terminate the contract with the subcontractor if during such three days the subcontractor provides information to establish that the subcontractor has not knowingly employed or contracted with an illegal alien.

The Contractor shall also comply with any reasonable request by the Colorado Department of Labor and Employment made in the course of an investigation that the department is undertaking pursuant to C.R.S. 8-17.5-102(2).

7. TAXES.

Construction and building materials sold to Contractor and subcontractors for use on structures, roads, streets, highways, and other public works owned by the Town of Hayden are exempt from Colorado sales and use taxes. However, such materials may be subject to any sales taxes imposed by local cities and counties and other local taxing authorities.

Contractor and subcontractors shall apply to the Colorado Department of Revenue for certificates of exemption indicating that their purchase of construction or building materials is for a public project. Completed copies of Application for Exemption Certificate with the approval of the Colorado Department of Revenue noted thereon should be delivered to Town prior to issuance of the Notice to Proceed. Contractor agrees to secure from each subcontractor copies of that subcontractor's approved Application and furnish a copy to Town.

8. INDEMNIFICATION AND INSURANCE.

Contractor shall indemnify and hold harmless Town, the Council and its agents and employees from and against any and all claims, damages, losses, injuries and expenses, including attorney's fees, arising out of or resulting from the performance of the work on the Project.

Contractor shall procure and maintain, at his own expense, until completion of all work and acceptance thereof by Town, all of the insurance coverages required below. Contractor shall furnish Town with a certificate of such insurance acceptable to Town. Such certificate shall be issued to Town and shall provide for ten (10) days written notice of cancellation or material change in coverage. The certificate shall be filed prior to the start of any work on the Project.

8.1. Liability Insurance. Contractor shall procure and maintain Comprehensive General Liability, including completed operations, contractual liability and automobile liability insurance affording coverage for all claims for bodily injury including death, and all claims for destruction of or damage to property, arising out of or in connection with any operations under this Contract, whether such operations be by Contractor or by subcontractors under him or anyone directly or indirectly employed by Contractor or by a subcontractor under him. Such insurance shall provide limits of liability of not less than one million dollars (\$1,000,000.00). Contractor shall furnish current certificates of insurance which shall include a provision that the insurance will not be canceled without ten (10) days prior notice to Town. All such insurance shall be written on a Comprehensive Form of Policy. All such insurance shall name Town as insured and Contractor as an additional insured.

8.2. Workman's Compensation Insurance; Unemployment Insurance; and Income Tax Withholding. Contractor shall procure and maintain Workman's Compensation Insurance at his own expense during the life of this Contract, including occupational disease provisions for all of his employees. Contractor shall also require each subcontractor to furnish Workman's Compensation Insurance, including occupational disease provisions for all of the latter's employees, otherwise he accepts full liability and responsibility for subcontractor's employees. In cases where any class of employees engaged in hazardous work under this Contract at the site of the Project is not protected under the Workman's Compensation statute, Contractor shall provide, and shall cause each subcontractor to provide, adequate and suitable insurance for the protection of his employees not otherwise protected. Neither the Contractor nor any employee of Contractor shall be entitled to unemployment insurance benefits through the Town and the Contractor shall be obligated to pay any federal or state income taxes due with respect to any sum payable by Town hereunder.

9. SUBLETTING OF CONTRACT.

Contractor shall not sublet, sell, transfer, assign or otherwise dispose of this Contract, or of his right, title or interest therein, without the written consent of Town, which consent may be withheld without cause.

Contractor may utilize the services of specialty subcontractors on those parts of the Project which, under normal contracting practices, are performed by specialty subcontractors.

Contractor shall not award work to subcontractors in excess of fifty percent (50%) of the contract price without prior written approval of Town.

Contractor shall be fully responsible to Town for the acts and omissions of his subcontractors and of persons directly employed by them, as he is for the acts and omissions of persons directly employed by him.

Contractor shall cause appropriate provisions to be inserted in all subcontracts relative to the Project to bind the subcontractors to Contractor by the terms of the Contract Documents and to give Contractor the same power as regard terminating any subcontract that Town may exercise over Contractor under any provision of the Contract Documents.

Nothing contained in this Contract shall create any contractual relationship between any subcontractor and Town.

10. WARRANTY.

Contractor warrants to Town that all equipment and materials to be furnished under this Contract shall be free from all defects in workmanship and materials.

Contractor shall remove from the Project area all work or materials rejected by the Project Administrator for failure to comply with the Contract Documents, whether incorporated in the construction or not. Contractor shall promptly replace the materials or re-execute the work in accordance with the Contract Documents and without expense to Town which are or become defective due to such defects within two (2) years after date of receipt by Town. Contractor shall also bear the expense of making good all work of other contractors destroyed or damaged by such removal or replacement.

Should Contractor fail to proceed promptly in accordance with this warranty, Town may have such work performed at the expense of Contractor.

11. PRE-CONTRACT EXAMINATION.

Before submitting his Bid, Contractor examined all of the work to be done as described in the Contract Documents and became well and fully informed as to the materials and character of work required, the relationship of all the particular parts of the work.

After execution of this Contract, no consideration will be granted for any misunderstanding of the materials to be furnished or the work to be done, it being mutually understood that the tender of the proposal carried with it an agreement to this end and all other conditions mentioned in this Contract and the Bid, and implied a full and complete understanding of them.

Should anything be omitted from the Construction Plans or Specifications necessary to the proper completion of the work herein described, it shall be the duty of Contractor to so notify Town before signing this Contract, and in the event of the failure of Contractor to give such notice, he shall make good any damage or defect in his work caused thereby without extra charge. No allowance will be made for lack of full knowledge of all conditions, except such underground conditions as are determined after commencement of the work and were unknown to Contractor.

12. ACCESS AND INSPECTION.

Town and the Project Administrator shall at all times have access to the work. Contractor shall provide proper facilities for such access and for inspection of the work. The Project Administrator is, in the first instance, the judge of the performance of the Contract as it relates to compliance with the Proposal, quality of workmanship and material.

All materials and equipment used in the construction of the Project shall be subject to adequate inspection and testing in accordance with generally accepted standards, as required and defined in the Contract Documents.

The Project Administrator may order that portions of the work be uncovered, exposed or made available for observations, inspection or testing. Contractor shall provide all necessary labor, materials, tools and equipment to comply with the Project Administrator's order. If such portion of the work is determined to be defective, Contractor shall bear all costs involved, including the cost of reconstruction. If such portion of the work is determined to be in substantial compliance with the Proposal, Contractor shall be compensated in accordance with Section 16 ^{**}(Changes and Additional Work).

13. MEASUREMENTS.

Contractor shall verify all measurements for unit bid price items at the site. All dimensions shown for existing work and all dimensions required for work that is to connect with work now in place shall be verified by Contractor by actual measurement of the existing work. Any discrepancies between the contract requirements and the existing conditions shall be referred to the Project Administrator before any work affected thereby has been performed. No compensation will be allowed for differences between actual dimensions and those indicated on the Proposal. Differences shall be submitted to the Project Administrator for consideration before proceeding with work, and in the event of the failure of Contractor to so notify the Project Administrator, Contractor shall make good any damage or defect in this work caused thereby, without extra charge to Town.

14. NON-DISCRIMINATION.

During the performance of this Contract, Contractor agrees as follows:

14.1. Contractor will not discriminate against any employee or applicant for employment because of race, creed, color, national origin, sex, marital status, religion, ancestry, mental or physical handicap, or age. Contractor will take affirmative action to insure that applicants are employed, and that employees are treated during employment, without regard to the above mentioned characteristics. Such action shall include, but not be limited to the following: employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; lay-offs or terminations; rates of pay or other forms of compensation; and selection for training, including apprenticeship. Contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by Contractor setting forth provisions of this non-discrimination clause.

14.2. Contractor will, in all solicitations or advertisements for employees placed by or on behalf of Contractor, state that all qualified applicants will receive consideration for employment without regard to race, creed, color, national origin, sex, marital status, religion, ancestry, mental or physical handicap, or age.

15. PROTECTION OF WORK AND PROPERTY.

Contractor shall continuously maintain adequate protection of his work and materials, protect the property on which the Project is to be constructed from injury or loss arising in connection with the Contract and adequately protect adjacent property as provided by law and Contract Documents.

Contractor shall at all times conduct his work so as to assure the least possible obstruction to traffic and adjacent residents. The safety and the protection of persons and property of the general public and residents along the street, highway and areas adjacent to the work shall be provided for by Contractor.

Contractor shall make good any damage, injury or loss, except such as may be:

- a. directly due to errors in the Proposal;
- b. caused by agents or employees of Town; or
- c. due to causes beyond Contractor's control and not due to his fault or negligence.

Contractor shall take all necessary precautions for the safety of employees on the work and shall comply with all applicable provisions of federal, state, municipal, Town or any other political subdivision's safety laws and building codes to prevent accident or injury to persons on, about or adjacent to the premises where the work is being performed. He shall erect and properly maintain at all times, as required by the conditions and progress of the work, all necessary safeguards for the protection of workmen and the public and, if necessary, shall take all other action necessary to assure the safe passage of pedestrians and automobiles.

16. CHANGES AND ADDITIONAL WORK.

Town may order changes within the scope of the work without invalidating this Contract. Such changes shall not require work beyond the geographical limits of the original Project unless the Contract is modified. An increase or decrease in the unit cost or completion time requires an equitable adjustment and a change order shall be authorized by the Project Administrator.

No deviations from the Proposal will be permitted except those specifically authorized by a written change order issued and signed by the Project Administrator. Any completely executed change order shall be considered authorization to proceed with the additional work. If Contractor proceeds without this authorization, he shall forfeit any claim for additional compensation for the work so performed.

If Town deems it expedient to correct damaged work or work not performed in accordance with this Contract, an equitable deduction from the contract price may be authorized by change order.

17. PARTIAL ACCEPTANCE.

During the prosecution of the Project, Contractor may substantially complete a unit or portion of the Project. Contractor may request Town's Project Administrator to make a final inspection of that portion of the Project. If the Project Administrator finds, upon inspection, that the work has been satisfactorily completed in compliance with the Contract Documents, he shall accept the work as being completed and Contractor shall be relieved of further responsibility for that work. Such partial acceptance shall in no way void or alter any terms of this Contract.

18. FINAL INSPECTION, ACCEPTANCE AND SETTLEMENT.

When the work is complete and ready for final inspection, Contractor shall file a written notice with the Project Administrator that the work, in the opinion of Contractor, is complete under the terms of this Contract.

Within ten (10) days after Contractor files written notice that the work is complete, the Project Administrator and Contractor shall make a "final inspection" of the Project to determine whether the work has been completed in accordance with the Contract Documents. A final list shall be made by the Project Administrator in sufficient detail to fully outline to Contractor:

- a. Work to be completed, if any;
- b. Work not in compliance with the Bid, Drawings or Specifications, if any; and
- c. Unsatisfactory work for any reason, if any.

Four (4) copies of the list will be counter-signed by the Project Administrator and will then be transmitted to Contractor (two copies) and Town (two copies).

Town shall not authorize final payment until all items on the list have been completed, a certificate of completion issued, and the notice of final payment as required by C.R.S. § 38-26-107 has been published and all applicable time periods under C.R.S. § 38-26-107 have expired.

Before Town is required to advertise, Contractor shall deliver to Town all guarantees and warranties, all statements to support Colorado sales and use tax refunds, if applicable, one (1) set of as-built drawings showing all job changes, and demonstrate to the operating personnel of Town the proper operation and maintenance of all equipment which is a part of the Project.

Upon completion of the foregoing, the Project shall be advertised by a notice of Contractor's settlement by two (2) publications of the notice, the last publication appearing at least ten (10) days prior to the time of final settlement. On the date of final settlement thus advertised, and after Contractor has submitted a written notice to Town that no claims have been filed, payment and settlement shall be made as provided in C.R.S. § 38-26-107.

If any unpaid claim for labor, materials, supplies, equipment or damages to third parties filed before payment in full of all sums due Contractor, Town shall withhold from Contractor sufficient funds to insure the payment of such claim until the same shall have been paid or withdrawn, such payment or withdrawal evidenced by filing a receipt in full or an order for withdrawal signed by the claimant or his duly-authorized agent or assignee.

19. CANCELLATION OF CONTRACT.

Failure of Contractor to comply with any of the requirements of this Contract and the Specifications may be considered as evidence of the inability on the part of Contractor to maintain the quality and service standards deemed necessary and shall be sufficient cause for the cancellation of this Contract.

20. ATTORNEY FEES.

In the event either party to this Contract brings suit to enforce or interpret any portion of this Contract, the party substantially prevailing in such action shall be entitled to recover all costs incurred in such action, including without limitation reasonable attorney's fees.

21. INTEGRATION; VENUE AND JURISDICTION.

This Contract shall be binding on and inure to the benefit of the parties hereto, their respective successors and assigns, and shall not be deemed to be for the benefit of or enforceable by any third party. This Contract constitutes the entire agreement between the parties concerning the work described in the Scope of Work and may not be amended except by a written document executed by both parties hereto. This Contract shall be governed by and construed in accordance with the internal laws of the State of Colorado without reference to choice of laws rules. The parties hereby agree that venue and jurisdiction for all actions taken with respect to this Contract shall be in the Routt County District Court in Steamboat Springs, CO.

22. LIMITATION ON SPENDING- In accordance with §24-91-103.6(2) C.R.S., the Town makes the following statements:

22.1. The amount of money appropriated by the Town is equal to or in excess of the Compensation described above.

22.2. No change order or other form of order or directive can be issued by the Town, which requires additional compensable work to be performed, which work causes the aggregate amount payable under the contract to exceed the amount of the Compensation described above, unless the Contractor is given written assurance by the Town that lawful appropriations to cover the costs of the additional work have been made, or unless such work is covered under a remedy granting provision in this Contract.

Town Council Agenda Item

MEETING DATE: May 22, 2025

AGENDA ITEM TITLE: Explorist.Life Conditional Use Permit

AGENDA SECTION: New Business

PRESENTED BY: Tegan Ebbert, Deputy Town Manager.

CAN THIS ITEM BE RESCHEDULED: Yes, but not recommended.

ATTACHEMNTS:

Draft Planning Commission meeting minutes

Staff Packet

Application submittal

BACKGROUND REVIEW:

The Hayden Planning Commission convened on May 8th to review and considere of the Conditional Use Permit application for Explorist.Life application for three warehouse structures, RV parking with product testing and limited onsite occupancy, and all associated infrastructure and amenities to be located at Lot 12, Northwest Colorado Business Park F3.

This project is subject to the Conditional Use Permit application due to the limited overnight onsite occupancy being proposed. This proposal is not for a recreation campground or an RV park nor is it open to the public but rather an accessory use to the primary operation onsite which is a business that is centered around off grid RV/camper van systems. Further analysis is contained in the attached staff report.

Further, the site dimensional and developmental standards have been reviewed through an administrative Site Plan process and will be reviewed once more concurrent with building permitting as is the permitting process for this application type.

The Hayden Planning Commission recommended approval of the Conditional Use Permit as presented.

RECOMMENDATION:

Move to approve the Explorist.Life Conditional Use Permit application for three warehouse structures, RV parking with product testing and limited onsite occupancy, and all associated infrastructure and amenities to be located at Lot 12, Northwest Colorado Business Park F3 with the following Finding of Fact:

178 West Jefferson Avenue · PO Box 190 · Hayden, CO 81639-0190

970-276-3741·Fax 970-276-3644

www.haydencolorado.com

1. The development application meets the standards of the Town of Hayden's Development Code, is consistent with the general goals and intent of the Town of Hayden Comprehensive Plan, and preserves the health, safety, and welfare of the citizens of the Town of Hayden.

MANAGER RECOMMENDATION/COMMENTS: *I concur with the recommendation.*

The regular meeting of the Hayden Planning Commission was called to order by Chair Williams at 6:00 p.m. Also in attendance were Commissioner David “Mo” Demorat, Commissioner Ben Robbins, and Alternate Commissioner Katie Berning, Hayden Contract Planner with Mesa Planning and Design LLC Ty Johnson, Town Manager Mathew Mendisco, and Project Manager Kevin Corona.

Pledge of Allegiance

Chair Williams led the Pledge of Allegiance.

Approval of the Minutes

Commissioner DeMorat made a motion to approve the Planning Commission meeting minutes from February 27th, 2025, the motion was approved unanimously.

**Explorist.Life Conditional
Use Permit, Lot 12
Northwest Colorado
Business Park F3**

The applicant, Steph Yarbrough, presented the site plan for 631 Wings Way and provided an overview of the proposed project and her company, Explorist.Life. The facility is proposed to be located in the Northwest Colorado Business Park and is intended to serve as the central hub for their business operations.

Steph and Nate Yarbrough, property owners, currently operate out of three separate warehouse locations—one on Bridge Lane in Steamboat Springs, and two adjacent lots on Marble Court, also in Steamboat. The goal of the new facility is to consolidate all operations into a single location to increase efficiency.

Steph noted that their current warehouse operations support five full-time employees and two part-time staff, in addition to several remote employees. The proposed facility includes six RV pads designed to support real-world electrical system installations. These pads will allow RVs to be connected to electrical and sewage systems during installations and troubleshooting processes.

Given the nature of their business, most customers are from out of state and may stay on-site in their RVs during installation or repair services. Explorist.Life also runs a YouTube channel with over 300,000 subscribers, where they produce educational content related to electrical installations and RV systems. The RV pads will be used for staging these instructional videos.

Additionally, the applicant requested the ability to use the RV pads for seasonal workforce housing, limited to a 90-day occupancy period to accommodate increased staffing needs during peak seasons.

Steph addressed traffic and site access concerns, explaining that the selected lot at the cul-de-sac location was chosen to help manage their regular logistics. Their operations include daily UPS and FedEx deliveries

and one weekly freight delivery. As their business is entirely e-commerce based, there will be no in-person retail customers visiting the site.

The site plan includes ample parking for employees and deliveries, dedicated fire access, storm drainage, snow storage, and other necessary infrastructure. The building design will feature a modern industrial aesthetic to align with neighboring structures in the business park.

Steph concluded by thanking the Planning Commission for their time and consideration and expressed hope that the project aligns with the Town of Hayden's vision for future development.

Public Comments

Chair Williams opened public comment. There was no public comment at this

Roundtable

Commissioner DeMorat asked for clarification regarding whether utility hookups would be provided for the proposed RV sites. Tennessee Johnson, representing T's Construction—the contractor for the project—was present at the meeting and responded that sewage hookups would be included to support troubleshooting and repairs while customers' RVs are being serviced.

Commissioner DeMorat then noted that the current site plan does not reflect utility connections. Ty Johnson clarified that the site plan currently on file with the Planning Department does not include utilities. He added that the site plan would be reviewed concurrently with the building permit submittal.

Town Manager Mathew Mendisco further explained that the inclusion of utilities such as electricity and sewage connections is intended to reduce the need for generators and to mitigate potential issues, such as spills during service. These connections are considered ancillary and are intended to provide adequate living conditions for both customers and seasonal employees.

He also clarified that there is a distinction between the civil application process and the technical building application, and that these aspects—including utility infrastructure—will be reviewed by Public Works as part of the broader permitting process.

Commissioner Robbins noted that it appears the appropriate departments will be reviewing the utilities and their capacity as part of the permitting review.

Town Manager Mendisco concluded the discussion by expressing appreciation for Explorist.Life's investment in the community. He commented that the business represents a model for light industrial development in Hayden and could help pave the way for similar projects in the future.

Motion

Chair Williams made a motion of approve and stated the

Findings of fact:

Motion to approve the Explorist Conditional Use Permit with the findings of fact that:

1. The development application meets the standards of the Town of Hayden's Development Code, is consistent with the general goals and intent of the Town of Hayden Comprehensive Plan, and preserves the health, safety, and welfare of the citizens of the Town of Hayden.

The decision was approved unanimously.

Staff Reports

Town Manager Mendisco provided an update on the Geothermal Utilities that are underway as they are now breaking ground. He explained they are now doing a single structure geothermal utility system.

Adjournment

The meeting was adjourned at 7PM

Recorded by:

Kevin Corona

APPROVED THIS _____ DAY OF _____, 2025

Amy J. Williams, Chair

Town of Hayden

Town Council Agenda Item

MEETING DATE: May 22, 2025

AGENDA ITEM TITLE: Explorist Conditional Use Permit

AGENDA SECTION: New Business

PRESENTED BY: Ty Johnson, Contract Planner

APPLICANT(S): ELD Hayden LLC

**CAN THIS ITEM BE
RESCHEDULED:** Not recommended.

ATTACHMENTS: Application Submittal

BACKGROUND REVIEW:

The owner, ELD Hayden LLC has submitted an application (Application) for a Conditional Use Permit (CUP) under Hayden's Development Code (HDC). The application requests the approval of a CUP to allow an accessory use of overnight occupancy in the form of RV sites. The subject property is located at Lot 12 Northwest Colorado Building Park, Filing No. 3. If approved, this will allow the applicant to have overnight occupancy, in the form of RV sites, as an accessory use to the primary use of warehouse operations to serve as the hub for inventory management, order assembly, packaging, and shipping for the Explorist.life business. Explorist.life is a business that specializes in providing parts, components, and educational resources for mobile, marine, and off-grid electrical systems. The applicant has proposed six RV pads for temporary use by traveling employees and service customers. The RV sites will serve several important functions for the business including employee product testing & development, on-site installations & service customer stays, seasonal workforce lodging, social media collaborations & filming, and electrical testing & validation.

A minor site plan application has also been submitted for the primary use of the property. That application will be reviewed administratively by Town staff, per Section 10.16.170(a)(1).

COMPLIANCE WITH THE TOWN OF HAYDEN DEVELOPMENT CODE

While the HDC contains numerous regulations regarding land use, staff has analyzed the following checklist to highlight the regulations directly applicable to this application and how it meets the standards for approval. Interested parties are encouraged to review the HDC to determine if there are other regulations that may be applicable to the review of this Application.

Chapter 10.16 – Development Review Procedures

Section 10.16.020 – General Procedures and Requirements.

Complies Yes	No	Section	Standards
		10.16.020(3)	Step 3: Application Processing
X		10.16.020(3)(a)	Determination of Completeness. A development application shall be reviewed for completeness by the manager within ten business days after receipt
X		10.16.020(3)(b)	Referral to Other Agencies. Development applications may be referred to other agencies for review and comment.
X		10.16.020(3)(b)(1)	Any utility, local improvement or service district or ditch company, when applicable. <i>Staff comment: A referral was made to Hayden Public Works Department, Yampa Valley Electric Association, Hayden Police Department, Hayden Building Department, Routt County Public Works Department, CDOT and West Routt Fire Protection District. Comments were received from Hayden Building Department and Yampa Valley Electric Association. One comment was received from Routt County Building Department. That comment has been included as an attachment to this staff report. This standard has been met.</i>
X		10.16.020(4)	Step 4: Notice. Notice shall be required for all public hearings conducted by the Planning Commission and Council. <i>Staff comment: All public notice requirements have been completed. Therefore, this standard is met</i>
X		10.16.020(5)	Step 5: Public Hearings. The Manager shall schedule a public hearing date before the Planning Commission and/or Council after a complete application has been received, Town staff has completed Town staff review, and referral agencies have had an opportunity to provide comments. <i>Staff comment: The public hearing has been scheduled with the Planning Commission on May 8, 2025 and Town Council on May 15, 2025; therefore, this standard has been met.</i>
		10.16.020(6)	Step 6: Review and Decision
X		10.16.020(6)(c)	Findings. The reviewing authority shall adopt written findings which document that a recommendation or decision is based upon a determination of whether the development application complies with the applicable review criteria. The written findings shall state the

conditions or mitigation. *Staff comment: Recommended findings of fact are included below for the Town Council's consideration.*

Section 10.16.060 – Conditional Use.

In order to provide flexibility and to help diversify uses within a zoning district, specified uses are permitted in certain districts subject to the granting of a conditional use permit. Specific conditional uses for each zone district are listed in the Uses by Zoning District Table. Because of their unusual or special characteristics, conditional uses require review and evaluation so that they may be located properly with respect to their effects on surrounding properties.

Complies		Section	Standards
Yes	No		
		10.16.060(2)	Preliminary Plan Review Criteria. The planning commission and Council shall use the following review criteria as the basis for recommendations and decisions on applications for conditional uses <i>Staff comment: The CUP is reviewed against the CUP review criteria, which are reviewed below.</i>
✓		10.16.060(2)(a)	<p>The proposed conditional use is consistent with the master plan and all applicable provisions of this Development Code and applicable state and federal regulations <i>Staff Comment: The subject property is zoned Light Industrial (I-1). The proposed accessory use of overnight occupancy is covered by dwellings, which is a conditional use in the I-1 zone district. The future land use designation for the subject property is airport/general aviation and service commercial. The proposed use of warehouse and overnight occupancy is supported by the future land use designation.</i></p> <p><i>The project furthers the goals and policies of the master plan, and more specifically conforms to the following:</i></p> <p><i>CA.ED2:Encourage development consistent with airport expansion goals that will increase Town's taxable revenue</i></p> <p><i>Action CA.ED2.2:Promote development in areas that are located along existing roadways within reasonable distance from existing utilities</i></p> <p><i>CA.ED2.6:Provide regulatory support that encourages infill of industrial, business and commercial near the airport.</i></p> <p><i>Action RE.FE1.3:Provide an efficient review and approvals process that creates a supportive business environment</i></p>

Action RE.ED3.1: Retain and expand upon regionally-serving commercial, industrial and service uses

Action RE.ED3.5: Support efforts that expand the area's commercial base, growing Town revenues, and providing essential services for residents, while also reducing spending beyond the market

Action RE.ED1.3: Prioritize investment and reinvestment in vacant and underutilized parcels within the municipal boundaries infrastructure is available, before growing beyond the existing Town boundaries

Action HE.HL1.2: Promote development of housing for the local workforce, including multi-family, duplex, single-family and alternative housing types

✓

10.16.060(2)(b)

The proposed conditional use is consistent with the purpose and intent of the zoning district in which it is located and any applicable use-specific standards in the Development Code *Staff Comment: The subject property is zoned Light Industrial (I-1). Dwelling is a conditional use for the I-1 zone district. The proposed use of overnight occupancy is an accessory use to the principal use of the property. This level of accessory use is what triggers the CUP as it is covered by dwelling in the zoning table. There are no use specific standards for this type of accessory use. Therefore, this standard is met.*

✓

10.16.060(2)(c)

The proposed conditional use is compatible with adjacent uses in terms of scale, site design and operating characteristics. *Staff Comment: The proposed use of overnight occupancy is compatible with adjacent uses. Currently, the only neighboring use is the airport. All of the other lots in the business park are currently vacant. However, they are zoned I-1 and any light industrial use would be compatible with the proposed conditional use of overnight occupancy. Therefore, this standard is met.*

✓

10.16.060(2)(d)

The proposed conditional use will not substantially alter the basic character of the district in which it is in or jeopardize the development or redevelopment potential of the district. *Staff Comment: The project will not alter the character of the area. This project will actually contribute to the character of the business park as it will be the first development in the business park, and it helps achieve the overall goal of commercial and light industrial development in the business park. Therefore, this standard is met.*

✓

10.16.060(2)(e)

The proposed conditional use will result in efficient on- and off-site traffic circulation which will not have a significant adverse impact on the adjacent uses or

result in hazardous conditions for pedestrians or vehicles in or adjacent to the site *Staff Comment: The proposed principal and accessory use are both logically laid out on the site. The project has adequate parking and maneuvering space for vehicles, and will result in efficient circulation of traffic both on and off the site. Therefore, this standard is met.*

✓

10.16.060(2)(f) Any significant adverse impacts (including but not limited to hours of operation, traffic generation, lighting, noise, odor, dust and other external impacts) anticipated to result from the conditional use will be mitigated or offset to the maximum extent practicable. *Staff Comment: Any adverse impacts associated with overnight occupancy have been considered and mitigated by the applicant. There will be an indoor lounge and bathroom facility to support the RV sites. Also, these RV sites will strictly be used for business-related purposes and will not be available for public or long-term housing.. Therefore, this standard is met.*

✓

10.16.060(2)(g) Facilities and services (including sewage and waste disposal, water, gas, electricity, police and fire protection and roads and transportation, as applicable) will be available to serve the subject property while maintaining adequate levels of service for existing development. *Staff Comment: The project will be served by all required utilities and emergency service providers. The RV pads will not have utility connections. There will be an indoor lounge and bathroom facility to support the RV sites. Therefore, this standard is met.*

✓

10.16.060(2)(h) Adequate assurances of continuing maintenance have been provided; and *Staff Comment: Assurances of continued maintenance have been provided in the fact that the business has invested in this location with plans to build out a headquarters for their business. Standard business practices have led to the success of Explorist.life can be assurance their approach is working. The proposed project is served by all required utilities and will meet all of the Town's standards for a minor site plan, and there is no reason to believe that the property would not be maintained. Therefore, this standard is met.*

✓

10.16.060(2)(i) The proposed conditional use meets all the applicable standards in [chapter 10.24](#), development standards *Staff Comment: The proposed accessory use of overnight occupancy meets all applicable standards of the Development Code. Furthermore, the minor site plan will be reviewed by Town staff and will be required to meet*

*all standards of the Development Code prior to approval.
Therefore, this standard is met.*

RECOMMENDATION:

Move to approve the Explorist Conditional Use Permit with the findings of fact that:

1. The development application meets the standards of the Town of Hayden's Development Code, is consistent with the general goals and intent of the Town of Hayden Comprehensive Plan, and preserves the health, safety, and welfare of the citizens of the Town of Hayden.

MANAGER'S RECOMMENDATION/COMMENTS:

I concur with this recommendation.

Re: Major Site Plan - Written Narrative
Lot 12 Northwest Building Park, Filing No. 3
Light Industrial Warehouse and RV Parking Facility
Four Points Project No. 2004-003

Dear Hayden Planning Department;

Introduction and Project Description

This letter serves as the Major Site Plan narrative for a planned development located at Lot 12 Northwest Building Park in Hayden, Colorado (Project). The Project consists of the construction of three warehouse structures, RV parking, and all associated infrastructure and amenities including access, parking, dumpster pads and enclosures, wet and dry utilities, drainage infrastructure, and landscaping. We are confident this Project conforms to Hayden's municipal code, master plan, and the community's forward vision.

Existing Conditions

Lot 12 is currently vacant and is located north of the Yampa Valley Regional Airport. The site was recently rezoned from Open – General Improvement District (O) to Light Industrial 1 (I-1) as part of the Northwest Colorado Business District development. The site fronts Sky High Court along the northeastern property boundary and Wings Way is located adjacent to the western property boundary along the rear lot line (see the Site Plan Map for additional information). Existing water and sanitary utility service connections were previously installed to the site as part of the Phase I Hayden Business Park development project. Yampa Valley Electric Association offers electric and broadband telecommunication services to all of the lots within the Northwest Colorado Business District.

The site exhibits a variety of drainage outfalls due to an existing ridge located centrally amongst the property. The ridge conveys stormwater runoff via overland flow directly towards the two abutting properties (Lot 11 and Lot 13 Hayden Business Park) without a defined outfall or designated storm sewer network. A roadside ditch was recently installed as part of the construction of Sky High Court and is located slightly northwest of the site, collecting a small drainage basin on site. The project has been designed to completely alleviate post-development flows on to the neighboring lot and route the entirety of the site drainage into the roadside ditch along Sky High Court. The roadside ditch eventually outfalls into a detention basin facility for water quality treatment, prior to release into the Marshall Ridge Ditch and eventually into the Yampa River. The existing roadside ditch has sufficient capacity to pass up to the 100-year (major) storm event into the detention basin for water quality treatment. See the accompanying drainage letter for additional information.

Compliance with Hayden Municipal Code and Site Design Criteria

The Project conforms to Hayden Municipal Code and development standards. The property is currently zoned within the Light Industrial District (I-1). The following section outlines compliance criteria as it pertains to Hayden Municipal Code Chapter 7.24.

Dimensional and Setback Standards: Building dimensions and setbacks comply, see sheet C3 of the civil plans. Each warehouse has been designed outside of the twenty-foot front and rear setback boundaries as well as the fifteen-foot side setbacks, applicable to the Light Industrial District (I-1).

Community Design Standards: Civil and architectural design standards are met. See plan sets.

Design Elements and Compact Urban Growth: The Project maximizes use of space on Lot 12 for commercial development while staying within development standards.

Access and Parking: The Project includes a new two-lane, twenty-four-foot-wide paved private access way connecting to the cul-de-sac at the southerly limits of Sky High Court. The new access will be used to route vehicular traffic to designated parking areas adjacent to each of the three warehouses. There are a total of twenty-one newly designated parking spaces as shown on the civil plans (including one accessible parking space).

Landscaping: The landscaping conforms to code and is integrated into the overall design and drainage features. See the lighting plan, included as sheet C10 of the civil plans.

Drainage and Environmental Considerations: Due to the increase of impervious area as a result of the development (including rooftops and paved areas), the peak flow rate and travel time of stormwater runoff will increase from pre-development to post-development conditions. However, drainage infrastructure in the form of vegetated conveyance swales and stormwater culverts on-site have been properly designed to route the entirety of the site drainage to the existing road-side ditch located on Sky High Court while minimizing stormwater runoff from draining directly to the neighboring lots. The existing ditch has sufficient capacity to pass the 100-year major event without overtopping or spilling over Sky High Court. The roadside ditch will convey site flows to the existing detention basin facility located further to the north where water quality treatment will be provided prior to release into natural waterbodies of the Marshall Ridge Ditch and eventually the Yampa River.

Water and Sewer Infrastructure: Extensions of the existing water and sewer services on the lot to each of the three warehouses are proposed as part of this Project. See the utility plan for additional information.

Lighting: Proposed lighting to consist of mounted fixtures on the exterior walls of each of the warehouse structures. Opaque lighting will be used to reduce glare and contrast on the surrounding area. A formal lighting and illumination plan can be provided to the Town of Hayden with progression of the project.

Consistency with Hayden Forward Master Plan

The proposed project aligns with the objectives outlined in the **Hayden Forward Master Plan 2020**, supporting the community's vision for sustainable growth. The development proposed at this site will be in-line with the overall goals of the Northwest Colorado Business District to create industrial and commercialized projects to enhance economic growth within the Town of Hayden. This project also clearly meets action policy CA.ED2.6 of the Hayden Forward Master Plan by encouraging infill of industrial business and commercial use

near the Yampa Valley Regional Airport. Furthermore, the development aligns seamlessly with Hayden's strategic vision for a well-planned, forward-thinking community.

Conclusion

We believe the Project meets all of the requirements of a Major Site Plan and is in line with Hayden standards, the Hayden Forward Master Plan, and Hayden Comprehensive Plan. We look forward to the approval of the Project and working with the Town of Hayden to bring it to the marketplace.

Sincerely,

Walter Magill, PE
Four Points Surveying & Engineering

Site Plan Application Narrative for EXPLORIST.life Warehouse

Business Overview

EXPLORIST.life specializes in providing parts, components, and educational resources for mobile, marine, and off-grid electrical systems. Our primary warehouse operations involve receiving, storing, and fulfilling orders for these specialized electrical components. The warehouse serves as the hub for inventory management, order assembly, packaging, and shipping. Our products are distributed nationwide to DIY enthusiasts, contractors, and off-grid adventurers.

Request for RV Sites

As part of our site plan, we are requesting the inclusion of six RV sites on the property for temporary use by employees and service customers. These RV sites will serve several important functions for our operations, including:

- **Seasonal Workforce Housing:** Our business experiences a surge in demand during peak seasons when customers are actively working on their camper and RV builds. These sites will allow us to accommodate short-term employees who assist with warehouse operations, installations, and customer support. Employee stays will be limited to a maximum of 90 days to ensure they remain temporary/seasonal.
- **Employee Product Testing & Development:** Many of our employees are active members of the camper and RV community, using and testing the very systems we design and sell. Having on-site RV accommodations allows them to integrate real-world product testing into their own vehicles, providing valuable insights for product development and customer support.
- **On-Site Installations & Service Customer Stays:** As we expand into offering installations and servicing camper electrical systems, we need dedicated RV sites for customers staying in their vehicles while work is being completed. This ensures they have a comfortable and convenient place to stay during their installation or service appointment. Customer stays will be capped at 14 days per project.
- **Social Media Collaborations & Filming:** A key part of our business involves content creation and collaborations with industry influencers. Having RV sites on-site allows us to host visiting creators for product installations, testing, and filming. This enables us to showcase our electrical systems in real-world applications and provide educational content to our audience.
- **Electrical System Testing & Validation:** As electrical systems are completed, it is essential to test them in real-world camper applications before finalizing installations. On-site RV sites allow us to efficiently verify performance, troubleshoot any issues, and ensure customers receive high-quality systems.

To support these RV sites, we will also provide an indoor lounge and bathroom facility. This ensures a comfortable and functional environment while maintaining a clean and professional workspace.

These RV sites will be used strictly for business-related purposes and will not be available for public or long-term housing. We are committed to managing these spaces responsibly and in compliance with all town regulations.

Thank you for considering our application.

The proposed conditional use is consistent with the Master Plan and all applicable provisions of this Development Code and applicable state and federal regulations; With the proposed plan yes, they will be built according to the plans submitted and reviewed and passed. They will meet all state and federal regulations.

The proposed conditional use is consistent with the purpose and the intent of the zoning district in which it is located and any applicable use specific standards in the Development Code; this will be used for employee housing with the notion of seasonal workforce housing, employee product testing & development, on-site installation & service customer stays, social media collaboration & filming.

The proposed conditional use is compatible with the adjacent use of terms of scale, site design and operating characteristics; Yes, the CUP is going to be compatible with adjacent uses as far as scale and in accordance with the submitted site design and operation of this business.

The proposed conditional use will not substantially alter the basic character of the district in which it is in or jeopardize the development or redevelopment potential of the district; The CUP will not affect the character of the district or jeopardize the development or redevelopment in any way.

The proposed conditional use will result in efficient on and off-site traffic circulation which will not have a significant adverse impact on the adjacent uses or result in hazardous conditions for pedestrians or vehicles in or adjacent to the site. The CUP should have little to no effect on the on and off-site circulation to traffic and in any way result in hazardous or dangerous situations for pedestrians or traffic or adjacent properties. Plans to have little to no turnover or in and out traffic.

Any significant adverse impacts including but not limited to hours of operation, traffic generation, lighting, noise, odor, dust and other external impacts anticipated to result from the conditional use will be mitigated or offset to the maximum extent practicable; There should be no significant adverse impacts anticipated as a result of the CUP. Work, traffic, lights, noise, odor, or any external impacts should be conducted and will be performed during normal business hours. All facilities and service, sewage and waste disposal water gas and electricity will all be contained and distributed on site.

Facilities and services(including sewage and waste disposal, water gas, electricity, police and fire protection and roads and transportation as applicable) will be available to serve the subject property while maintaining adequate levels of service for existing development; Police and fire protection, roads and transportation should and will have

all available needs to serve property adequately with the proper civil design that we have and turned in, and should not in any way affect the existing development.

Adequate assurances of continuing maintenance have been provided; Ensuring continued maintenance has been identified in the planning phase of this project whereas everything from individual RV sites to the buildings all waterpowers ewer and GEO are currently planned to be individually monitored along with all can be individually isolated for maintenance and service and not affect the site or development while doing so.

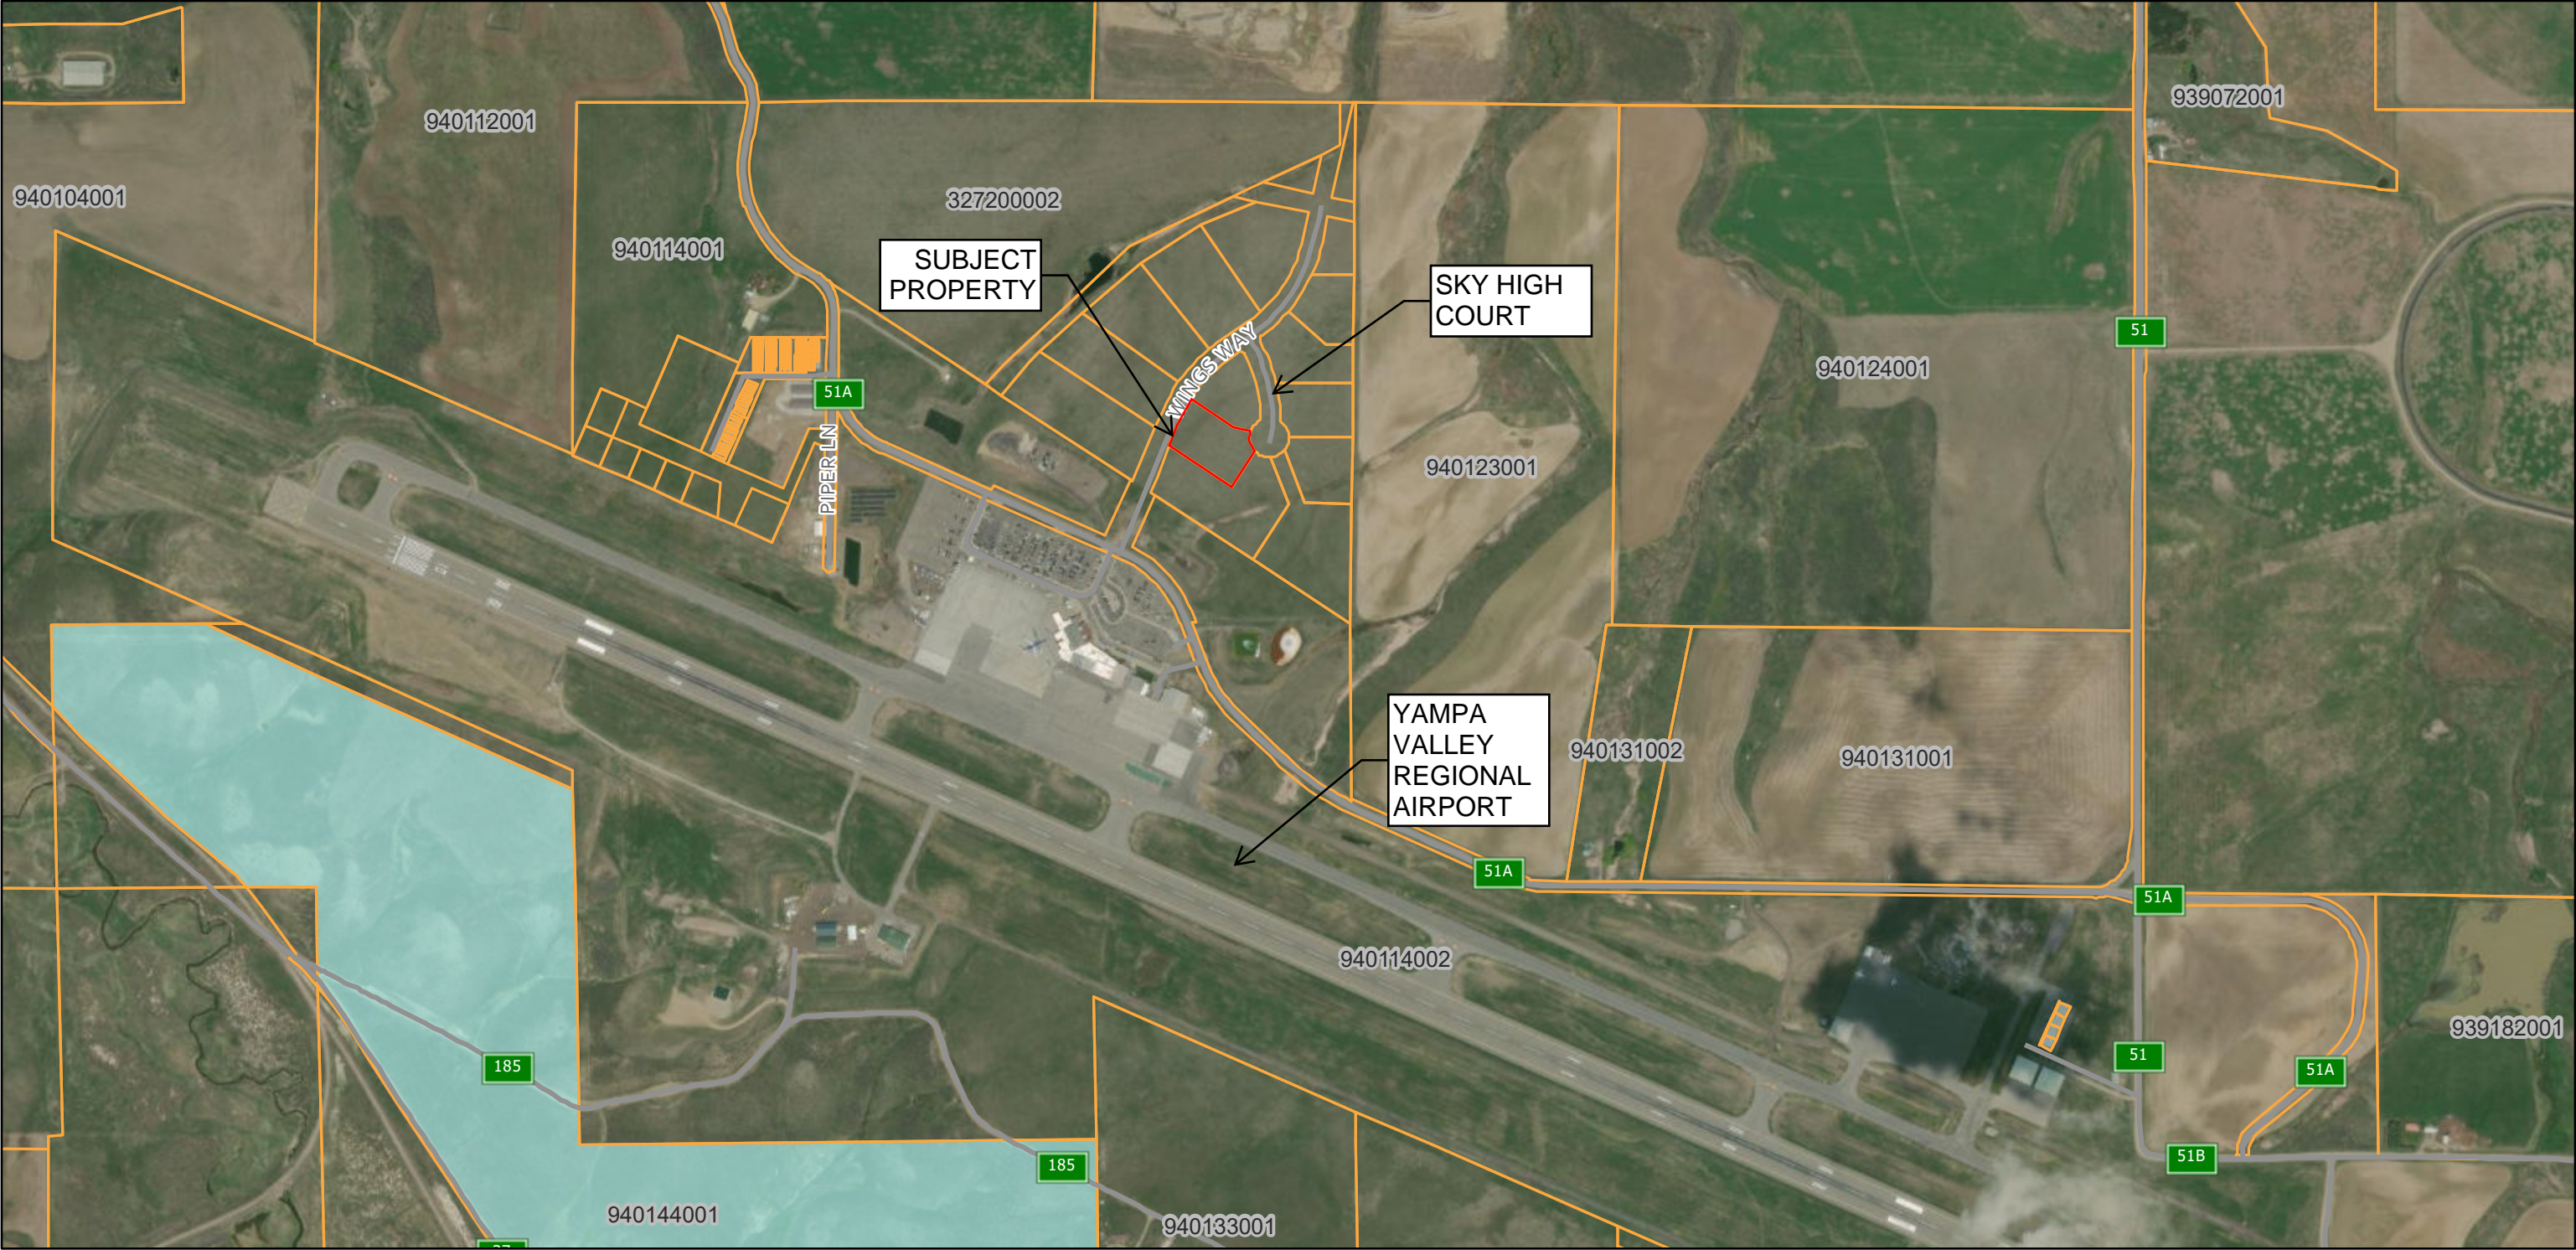

The proposed conditional use meets all the applicable standards in chapter 10.24 Development Standards; The CUP meets to my knowledge the standards in chapter 10.24 development standards.

If you have any other questions, please feel free to reach out and I'll be more than happy to help you get them answered.

Thank you,

TOWN OF HAYDEN
AGREEMENT FOR PAYMENT OF
DEVELOPMENT REVIEW EXPENSES INCURRED BY THE TOWN
Regarding Project: Explorist Life

THIS AGREEMENT ("Agreement"), made and entered into this ____ day of _____ 20____, by and between the TOWN OF HAYDEN, COLORADO, a municipal corporation, hereinafter referred to as "the Town", and ELD Hayden, LLC, Land Owner/Business Entity, hereinafter referred to as "the Owner," for work herein described as "Development Review" in the Town of Hayden, including, but not limited to, Annexations, Platting, and Site Development Review.

WITNESSETH

WHEREAS, the Owner owns certain Property situated in the County of Routt, State of Colorado, and legally described as follows, to wit:

See **Exhibit A** — Legal Description attached hereto

WHEREAS, the Town's review process includes review of the Owner's proposed plans for the Property which identify land use, location of structures and/or improvements, the location of parks, schools and open space dedications, general location of streets, and a review of utility service issues including the installation of public improvements, dedication of utility easements, confirmation of the availability of utility services and the method for developing and paying for such utility services; and

WHEREAS, the Owner desires to annex, plat and/or develop all or a portion of said Property and has made application to the Town of Hayden; and

WHEREAS, the Parties hereto recognize that the fees as specified by the Municipal Code of the Town of Hayden are not adequate to fully cover the Town's expenses in considering the application, which include, but are not limited to, legal publications, engineering fees, attorney fees, and land planner/consultant fees, reproduction of materials, public hearing expenses and recording of documents; and

WHEREAS, the Parties recognize that the Town will incur expenses prior to the Owner's formal submittal of an annexation, platting or development review proposal; and

WHEREAS, the Parties hereto recognize that the Town will continue to incur expenses throughout the entire Development Review until either (i) abandonment of the work, in writing, by either the Town or the Owner or (ii) completion of the process.

NOW, THEREFORE, in consideration of the foregoing Development Review and of the mutual agreements and conditions hereinafter contained, it is hereby agreed as follows:

1. Full and separate accounting of the Development Review expenses (annexation, platting and site development review). The Town will maintain separate accounting of all funds expended and fees and expenses incurred by the Town as a result of the Development Review of the above referenced Project. Monthly statements of expenses incurred will be made available to the Owner by the Town. Expenses to be charged to the Owner's account shall include, but shall not be limited to, those fees and expenses attributable to legal publications, engineering services, attorney fees, planner/consultant fees, reproduction of materials, public hearing expenses, and the recording of documents. This shall not include the securing of permits and easements which are responsibility of the Owner, separate from this agreement.

2. Owner payment of expenses —Town estimate of fees. The Owner acknowledges that the Town may employ third party planners, engineers, attorneys, and/or other professional fees, incurred as part of the Development Review and approval of the above referenced Project, **are determined after a sufficiency review of the completed Development Review application.**

(a) Initial owner deposit. Upon the execution of this Agreement, the Owner agrees to deposit with the Town the sum of **\$500**, which sum shall serve **as a deposit and partial payment** of third party professional costs incurred by the Town as well as Town staff hourly charges as adopted by the Town while processing the Owner's proposal. Town reserves the right to request a deposit amount higher than \$500 should Town staff feel the project needs will exceed \$500 with a limit of \$5,000 initial request on deposit by applicant.

Any further costs outside of the **\$500 deposit and partial payment** will be incurred at the third party's hourly rate to be paid by the Owner to the Town.

As the Town receives third party billings from its professionals, it will forward photocopies of the same **(on a monthly basis)** to the Owner for immediate payment to the Town of the amount shown on each professional service invoice approved for payment by the Town. The Town will also forward Town invoices of Town staff time associated with the development review. In the event the Owner fails to pay the invoice as submitted by the Town within ten (30) days of the Town's delivery of an invoice, the Town shall be entitled to take the following action: (i) suspend all further review; (ii) cancel any public hearings scheduled by the Town with respect to the Development Review process; and (iii) apply the funds on deposit to retire the balance due any third party professional engaged by the Town.

(b) Payment of balance due at termination. In the event the Town's review expenses are greater than the funds held by the Town at the time of its suspension of review, the Owner agrees to reimburse to the Town, upon demand, such funds as are necessary to retire the balance due per invoices by the third party professionals and the Town at the time of the Town's termination of the review.

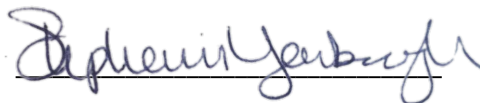

(c) Obligation to pay fees in excess of estimate. The Owner understands that estimates by third party professionals and the Town are subject to factors outside the control of those professionals and the Town. Factors include the quality of materials submitted by applicants, input from other review agencies, unforeseen problems or issues, and decisions by the Town of Hayden Planning Commission and/or the Town Board, which may affect charges by those professionals. Therefore, the Owner agrees to pay fees in excess of the Estimate for third party professionals.

3. Application termination. Except where the law or an agreement with the Town provides otherwise, the Owner may terminate its application at any time by giving written notice to the Town. The Town shall take all reasonable steps necessary to terminate the Development Review process including the cessation of additional accrual costs to the Owner post-termination letter, and shall file such notices as are required under the Town's annexation and Development Review regulations. The Owner shall be liable for all costs incurred up to the point of termination and cost incurred by the Town for the termination process.

4. Collection of fees and costs. If the Owner fails to pay the fees required herein when due, the Town may take all necessary steps authorized by law in order to collect the fees due. The Town shall also be entitled to all court costs and attorney fees incurred in collection of the balance due including, but not limited to, the interest on the amount due at a rate of 18% per annum.

IN WITNESS WHEREOF, the Town and the Owner have caused this Agreement to be duly executed on the day and year first above written.

CERTIFICATION

I hereby affirm that this Drainage Report for was prepared by me (or under my direct supervision) for the owners thereof and is, to the best of my knowledge, in accordance with the best engineering judgement and practices and using provisions of the City of Steamboat Springs Storm Drainage Criteria. I understand that the Town of Hayden does not and will not assume liability for drainage facilities designed by others.

Walter Magill, PE
State of Colorado No. 33743

Date:_____

1.0 General Location and Site Description

This report provides a detailed analysis of the existing pre-development and proposed post-development drainage conditions for the construction of three warehouse structures and related site infrastructure on Lot 12 of the Northwest Colorado Business Park in Hayden, Colorado. This report includes data, engineering methods, assumptions, and calculations used by Four Points Surveying and Engineering (Four Points) to evaluate the pre- and post- development drainage from the site. While this site is in the Town of Hayden, Four Points prepared this report using guidance from the most recent version of the City of Steamboat Springs Drainage Criteria and Engineering Standards.

A. Location

Figure 1: Vicinity Map

Legal Description: Lot 12 Northwest Colorado Business Park, Filing No. 3

The project site is located north of the Yampa Valley Regional Airport and is comprised of a 2.41-acre lot within the Northwest Colorado Business Park Subdivision (Parcel Identification Number: 338200012).

The existing lot is vacant with native vegetation and is currently zoned as Open, General Improvement District (GID). An existing drainage swale borders the northeastern property line adjacent to Sky High Court that was constructed as part of Phase I of Hayden Business Park development. The proposed use of the site is Light-Industrial with the integration of three new warehouse structures, six new RV parking spaces, as well as related site work including but not limited to paving, utility service extensions, grading improvements, etc.

2.0 Drainage Criteria and Methodology Used

A. Design Rainfall and Storm Frequency

Point precipitation frequency estimates from NOAA Atlas 14 were reviewed to determine approximate rainfall depth for the project area. See the appendices for additional information.

- Minor Event (5-year) 24-hour rainfall depth: 1.44 inches
- Major Event (100-year) 24-hour rainfall depth: 2.65 inches

B. Runoff Calculation Methodology

Runoff calculation method: Small basin peak flow runoff was analyzed using the Rational Method, shown in Eq-1.

$$\text{Rational Method: } Q = CiA \quad (\text{Eq-1})$$

Where:

- Q = runoff, CFS
- C = runoff coefficient, dimensionless
- i = rainfall intensity, inches per hour
- A = basin area, acres

3.0 Existing Conditions

A. Ground Cover, Imperviousness, Topography and Size

- Gently to moderately sloping, slopes range from 2 to 20%.
- Land coverage represents native grasses and vegetation.
- 0-2% imperviousness (pre-development)
- An existing ridgeline on the central portion of the site diverts runoff via overland flow towards the adjacent lots (Lot 13 and Lot 11) without any defined stormwater outfalls.
- Total lot size: 2.41 acres
- Total drainage basin area: 2.53 acres (includes a small portion of off-site area in the right-of-way)

B. Existing Stormwater Systems and Site Outfall

There is limited existing drainage infrastructure located on the site. An existing swale borders the northeastern property line as well as Sky High Court that was constructed as part of the Phase I Hayden Business Park development. A small portion of the site (0.66 acres) drains to this swale and eventually discharges northerly to an existing detention basin facility with the ultimate discharge being the Yampa River. The remaining lot area is split into two historic

design point outfalls, located directly off-site on the adjacent lots, Lot 11 and Lot 13 Northwest Colorado Business Park.

C. NRCS Soil Type

Per the NWCC soil report dated January 3, 2025.

- 100% of the site is classified as Morapos loam.
- Loam is generally present from ground surface to 12-inches below grade, with clay extending from 12 to 32 inches below the ground surface, and clay loam extending 32 inches to approximately 60-inches below grade.
- The depth to the water table is indicated as more than 80 inches beneath the ground.
- Soils are classified as Hydraulic Group C which indicates soils with slow infiltration rate and moderately high runoff potential.

4.0 Proposed Conditions

A. Ground Cover, Imperviousness, Topography and Size

The final developed ground cover will consist primarily of the three building footprints, paving associated with access and parking, gravel surfacing, and landscaping. The site is split into three distinct drainage sub-basins based on the diversions of stormwater on-site. The proposed grading schematic will eliminate the potential for stormwater to discharge directly off-site to lot 11 and lot 13. All stormwater is intended to be collected directly on-site and conveyed into the drainage swale located at the northeast property corner with the ultimate discharge being the Yampa River.

B. Proposed Stormwater System and Outfall

The developed portion of the site is encapsulated in sub-basin DB1. Runoff generated from the three warehouse rooftops and newly paved and gravel surface areas will drain via sheet flow into a valley pan and eventually into a series of nyloplast inlets and storm culverts to the existing drainage ditch at the northeastern property line, adjacent to Sky High Court.

There are two additional sub-basins, DB2 and DB3. These sub-basins encapsulate a vegetated swale that wraps around the entire perimeter of the site. The perimeter swale will help facilitate the conveyance of stormwater via channel flow to the existing swale located at the northeastern property corner, adjacent to Sky High Court. The purpose of the perimeter swale is to eliminate the potential for post-development stormwater from draining directly off-site to the neighboring lots.

All three of the post-development sub-basins will eventually discharge to the existing swale at the northeastern property line, denoted as Design Point 1.

5.0 Design Summary

The existing and proposed drainage was analyzed by subdividing the lot into existing basins (EBs) and development basins (DBs). Major and minor flows for the basins have been summarized in the following table. Basin calculations are further provided in the appendices.

Table 1: Major and Minor Flow Summary Table

Basin Condition	Area (acres)	Impervious Area (%)	Runoff	
			Q ₅ (cfs)	Q ₁₀₀ (cfs)
EB1	0.66	2%	0.25	1.69
EB2	1.15	2%	0.43	2.95
EB3	0.72	2%	0.27	1.87
DB1	1.18	70%	1.78	4.98
DB2	0.60	31%	0.55	2.21
DB3	0.75	10%	0.45	2.52

Stormwater discharges from the site into the existing drainage swale bordering the northeastern property line. Calculated post-development runoff is higher than existing values due to the addition of impervious surfaces as a result of the development. The difference in net flow rate into the existing swale from pre-development to post-development conditions is approximately 8.02 cubic feet per second (cfs) during the major, 100-year event.

Calculation:

Contributing Drainage Existing = 1.69 cfs

[EB1]

Contributing Drainage Developed = (4.98 + 2.21 + 2.52) cfs = 9.71 cfs

[DB1-DB3]

Net Difference = 8.02 cfs

6.0 Conclusions

Existing drainage patterns will generally be maintained under the proposed conditions, however, runoff generated on-site will be fully routed to the existing drainage channel at the northeastern property line rather than directly off-site to the neighboring lots. This will be accomplished via the addition of valley pans, perimeter vegetated swales, stormwater inlets, and culverts. Peak flows will be increased at Design Point 1 following the development due to the addition of imperviousness on-site. The existing swale at the design point outfall handling the entirety of the site discharge is flat and wide and should accommodate the additional flows from the project. Capacity analysis of the existing swale with post-developed flows has been included in the appendices.

Custom Soil Resource Report for Routt Area, Colorado, Parts of Rio Blanco and Routt Counties

Preface

Soil surveys contain information that affects land use planning in survey areas. They highlight soil limitations that affect various land uses and provide information about the properties of the soils in the survey areas. Soil surveys are designed for many different users, including farmers, ranchers, foresters, agronomists, urban planners, community officials, engineers, developers, builders, and home buyers. Also, conservationists, teachers, students, and specialists in recreation, waste disposal, and pollution control can use the surveys to help them understand, protect, or enhance the environment.

Various land use regulations of Federal, State, and local governments may impose special restrictions on land use or land treatment. Soil surveys identify soil properties that are used in making various land use or land treatment decisions. The information is intended to help the land users identify and reduce the effects of soil limitations on various land uses. The landowner or user is responsible for identifying and complying with existing laws and regulations.

Although soil survey information can be used for general farm, local, and wider area planning, onsite investigation is needed to supplement this information in some cases. Examples include soil quality assessments (<http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/health/>) and certain conservation and engineering applications. For more detailed information, contact your local USDA Service Center (<https://offices.sc.egov.usda.gov/locator/app?agency=nrcs>) or your NRCS State Soil Scientist (http://www.nrcs.usda.gov/wps/portal/nrcs/detail/soils/contactus/?cid=nrcs142p2_053951).

Great differences in soil properties can occur within short distances. Some soils are seasonally wet or subject to flooding. Some are too unstable to be used as a foundation for buildings or roads. Clayey or wet soils are poorly suited to use as septic tank absorption fields. A high water table makes a soil poorly suited to basements or underground installations.

The National Cooperative Soil Survey is a joint effort of the United States Department of Agriculture and other Federal agencies, State agencies including the Agricultural Experiment Stations, and local agencies. The Natural Resources Conservation Service (NRCS) has leadership for the Federal part of the National Cooperative Soil Survey.

Information about soils is updated periodically. Updated information is available through the NRCS Web Soil Survey, the site for official soil survey information.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or a part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require

alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write to USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

How Soil Surveys Are Made

Soil surveys are made to provide information about the soils and miscellaneous areas in a specific area. They include a description of the soils and miscellaneous areas and their location on the landscape and tables that show soil properties and limitations affecting various uses. Soil scientists observed the steepness, length, and shape of the slopes; the general pattern of drainage; the kinds of crops and native plants; and the kinds of bedrock. They observed and described many soil profiles. A soil profile is the sequence of natural layers, or horizons, in a soil. The profile extends from the surface down into the unconsolidated material in which the soil formed or from the surface down to bedrock. The unconsolidated material is devoid of roots and other living organisms and has not been changed by other biological activity.

Currently, soils are mapped according to the boundaries of major land resource areas (MLRAs). MLRAs are geographically associated land resource units that share common characteristics related to physiography, geology, climate, water resources, soils, biological resources, and land uses (USDA, 2006). Soil survey areas typically consist of parts of one or more MLRA.

The soils and miscellaneous areas in a survey area occur in an orderly pattern that is related to the geology, landforms, relief, climate, and natural vegetation of the area. Each kind of soil and miscellaneous area is associated with a particular kind of landform or with a segment of the landform. By observing the soils and miscellaneous areas in the survey area and relating their position to specific segments of the landform, a soil scientist develops a concept, or model, of how they were formed. Thus, during mapping, this model enables the soil scientist to predict with a considerable degree of accuracy the kind of soil or miscellaneous area at a specific location on the landscape.

Commonly, individual soils on the landscape merge into one another as their characteristics gradually change. To construct an accurate soil map, however, soil scientists must determine the boundaries between the soils. They can observe only a limited number of soil profiles. Nevertheless, these observations, supplemented by an understanding of the soil-vegetation-landscape relationship, are sufficient to verify predictions of the kinds of soil in an area and to determine the boundaries.

Soil scientists recorded the characteristics of the soil profiles that they studied. They noted soil color, texture, size and shape of soil aggregates, kind and amount of rock fragments, distribution of plant roots, reaction, and other features that enable them to identify soils. After describing the soils in the survey area and determining their properties, the soil scientists assigned the soils to taxonomic classes (units). Taxonomic classes are concepts. Each taxonomic class has a set of soil characteristics with precisely defined limits. The classes are used as a basis for comparison to classify soils systematically. Soil taxonomy, the system of taxonomic classification used in the United States, is based mainly on the kind and character of soil properties and the arrangement of horizons within the profile. After the soil

scientists classified and named the soils in the survey area, they compared the individual soils with similar soils in the same taxonomic class in other areas so that they could confirm data and assemble additional data based on experience and research.

The objective of soil mapping is not to delineate pure map unit components; the objective is to separate the landscape into landforms or landform segments that have similar use and management requirements. Each map unit is defined by a unique combination of soil components and/or miscellaneous areas in predictable proportions. Some components may be highly contrasting to the other components of the map unit. The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The delineation of such landforms and landform segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, onsite investigation is needed to define and locate the soils and miscellaneous areas.

Soil scientists make many field observations in the process of producing a soil map. The frequency of observation is dependent upon several factors, including scale of mapping, intensity of mapping, design of map units, complexity of the landscape, and experience of the soil scientist. Observations are made to test and refine the soil-landscape model and predictions and to verify the classification of the soils at specific locations. Once the soil-landscape model is refined, a significantly smaller number of measurements of individual soil properties are made and recorded. These measurements may include field measurements, such as those for color, depth to bedrock, and texture, and laboratory measurements, such as those for content of sand, silt, clay, salt, and other components. Properties of each soil typically vary from one point to another across the landscape.

Observations for map unit components are aggregated to develop ranges of characteristics for the components. The aggregated values are presented. Direct measurements do not exist for every property presented for every map unit component. Values for some properties are estimated from combinations of other properties.

While a soil survey is in progress, samples of some of the soils in the area generally are collected for laboratory analyses and for engineering tests. Soil scientists interpret the data from these analyses and tests as well as the field-observed characteristics and the soil properties to determine the expected behavior of the soils under different uses. Interpretations for all of the soils are field tested through observation of the soils in different uses and under different levels of management. Some interpretations are modified to fit local conditions, and some new interpretations are developed to meet local needs. Data are assembled from other sources, such as research information, production records, and field experience of specialists. For example, data on crop yields under defined levels of management are assembled from farm records and from field or plot experiments on the same kinds of soil.

Predictions about soil behavior are based not only on soil properties but also on such variables as climate and biological activity. Soil conditions are predictable over long periods of time, but they are not predictable from year to year. For example, soil scientists can predict with a fairly high degree of accuracy that a given soil will have a high water table within certain depths in most years, but they cannot predict that a high water table will always be at a specific level in the soil on a specific date.

After soil scientists located and identified the significant natural bodies of soil in the survey area, they drew the boundaries of these bodies on aerial photographs and

Custom Soil Resource Report

identified each as a specific map unit. Aerial photographs show trees, buildings, fields, roads, and rivers, all of which help in locating boundaries accurately.

Soil Map

The soil map section includes the soil map for the defined area of interest, a list of soil map units on the map and extent of each map unit, and cartographic symbols displayed on the map. Also presented are various metadata about data used to produce the map, and a description of each soil map unit.

Map Unit Descriptions

The map units delineated on the detailed soil maps in a soil survey represent the soils or miscellaneous areas in the survey area. The map unit descriptions, along with the maps, can be used to determine the composition and properties of a unit.

A map unit delineation on a soil map represents an area dominated by one or more major kinds of soil or miscellaneous areas. A map unit is identified and named according to the taxonomic classification of the dominant soils. Within a taxonomic class there are precisely defined limits for the properties of the soils. On the landscape, however, the soils are natural phenomena, and they have the characteristic variability of all natural phenomena. Thus, the range of some observed properties may extend beyond the limits defined for a taxonomic class. Areas of soils of a single taxonomic class rarely, if ever, can be mapped without including areas of other taxonomic classes. Consequently, every map unit is made up of the soils or miscellaneous areas for which it is named and some minor components that belong to taxonomic classes other than those of the major soils.

Most minor soils have properties similar to those of the dominant soil or soils in the map unit, and thus they do not affect use and management. These are called noncontrasting, or similar, components. They may or may not be mentioned in a particular map unit description. Other minor components, however, have properties and behavioral characteristics divergent enough to affect use or to require different management. These are called contrasting, or dissimilar, components. They generally are in small areas and could not be mapped separately because of the scale used. Some small areas of strongly contrasting soils or miscellaneous areas are identified by a special symbol on the maps. If included in the database for a given area, the contrasting minor components are identified in the map unit descriptions along with some characteristics of each. A few areas of minor components may not have been observed, and consequently they are not mentioned in the descriptions, especially where the pattern was so complex that it was impractical to make enough observations to identify all the soils and miscellaneous areas on the landscape.

The presence of minor components in a map unit in no way diminishes the usefulness or accuracy of the data. The objective of mapping is not to delineate pure taxonomic classes but rather to separate the landscape into landforms or landform segments that have similar use and management requirements. The delineation of such segments on the map provides sufficient information for the development of resource plans. If intensive use of small areas is planned, however, onsite investigation is needed to define and locate the soils and miscellaneous areas.

An identifying symbol precedes the map unit name in the map unit descriptions. Each description includes general facts about the unit and gives important soil properties and qualities.

Soils that have profiles that are almost alike make up a *soil series*. Except for differences in texture of the surface layer, all the soils of a series have major horizons that are similar in composition, thickness, and arrangement.

Soils of one series can differ in texture of the surface layer, slope, stoniness, salinity, degree of erosion, and other characteristics that affect their use. On the basis of such differences, a soil series is divided into *soil phases*. Most of the areas shown on the detailed soil maps are phases of soil series. The name of a soil phase commonly indicates a feature that affects use or management. For example, Alpha silt loam, 0 to 2 percent slopes, is a phase of the Alpha series.

Some map units are made up of two or more major soils or miscellaneous areas. These map units are complexes, associations, or undifferentiated groups.

A *complex* consists of two or more soils or miscellaneous areas in such an intricate pattern or in such small areas that they cannot be shown separately on the maps. The pattern and proportion of the soils or miscellaneous areas are somewhat similar in all areas. Alpha-Beta complex, 0 to 6 percent slopes, is an example.

An *association* is made up of two or more geographically associated soils or miscellaneous areas that are shown as one unit on the maps. Because of present or anticipated uses of the map units in the survey area, it was not considered practical or necessary to map the soils or miscellaneous areas separately. The pattern and relative proportion of the soils or miscellaneous areas are somewhat similar. Alpha-Beta association, 0 to 2 percent slopes, is an example.

An *undifferentiated group* is made up of two or more soils or miscellaneous areas that could be mapped individually but are mapped as one unit because similar interpretations can be made for use and management. The pattern and proportion of the soils or miscellaneous areas in a mapped area are not uniform. An area can be made up of only one of the major soils or miscellaneous areas, or it can be made up of all of them. Alpha and Beta soils, 0 to 2 percent slopes, is an example.

Some surveys include *miscellaneous areas*. Such areas have little or no soil material and support little or no vegetation. Rock outcrop is an example.

Routt Area, Colorado, Parts of Rio Blanco and Routt Counties

7C—Morapos loam, 3 to 12 percent slopes

Map Unit Setting

National map unit symbol: k0f3
Elevation: 6,300 to 7,220 feet
Mean annual precipitation: 16 to 20 inches
Mean annual air temperature: 41 to 45 degrees F
Frost-free period: 70 to 110 days
Farmland classification: Not prime farmland

Map Unit Composition

Morapos and similar soils: 85 percent
Minor components: 15 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Morapos

Setting

Landform: Hills
Landform position (two-dimensional): Backslope
Landform position (three-dimensional): Side slope
Down-slope shape: Linear
Across-slope shape: Linear
Parent material: Slope alluvium derived from shale

Typical profile

A - 0 to 6 inches: loam
AB - 6 to 12 inches: loam
Bt - 12 to 16 inches: clay
Btk - 16 to 22 inches: clay
Bk1 - 22 to 32 inches: clay
Bk2 - 32 to 40 inches: clay loam
Bk3 - 40 to 60 inches: clay loam

Properties and qualities

Slope: 3 to 12 percent
Depth to restrictive feature: More than 80 inches
Drainage class: Well drained
Runoff class: Medium
Capacity of the most limiting layer to transmit water (Ksat): Moderately low to moderately high (0.07 to 0.21 in/hr)
Depth to water table: More than 80 inches
Frequency of flooding: None
Frequency of ponding: None
Calcium carbonate, maximum content: 15 percent
Maximum salinity: Nonsaline to very slightly saline (0.0 to 2.0 mmhos/cm)
Sodium adsorption ratio, maximum: 2.0
Available water supply, 0 to 60 inches: High (about 10.6 inches)

Interpretive groups

Land capability classification (irrigated): 4e
Land capability classification (nonirrigated): 4e
Hydrologic Soil Group: C

Soil Information for All Uses

Soil Properties and Qualities

The Soil Properties and Qualities section includes various soil properties and qualities displayed as thematic maps with a summary table for the soil map units in the selected area of interest. A single value or rating for each map unit is generated by aggregating the interpretive ratings of individual map unit components. This aggregation process is defined for each property or quality.

Soil Qualities and Features

Soil qualities are behavior and performance attributes that are not directly measured, but are inferred from observations of dynamic conditions and from soil properties. Example soil qualities include natural drainage, and frost action. Soil features are attributes that are not directly part of the soil. Example soil features include slope and depth to restrictive layer. These features can greatly impact the use and management of the soil.

Hydrologic Soil Group

Hydrologic soil groups are based on estimates of runoff potential. Soils are assigned to one of four groups according to the rate of water infiltration when the soils are not protected by vegetation, are thoroughly wet, and receive precipitation from long-duration storms.

The soils in the United States are assigned to four groups (A, B, C, and D) and three dual classes (A/D, B/D, and C/D). The groups are defined as follows:

Group A. Soils having a high infiltration rate (low runoff potential) when thoroughly wet. These consist mainly of deep, well drained to excessively drained sands or gravelly sands. These soils have a high rate of water transmission.

Group B. Soils having a moderate infiltration rate when thoroughly wet. These consist chiefly of moderately deep or deep, moderately well drained or well drained soils that have moderately fine texture to moderately coarse texture. These soils have a moderate rate of water transmission.

Custom Soil Resource Report

Group C. Soils having a slow infiltration rate when thoroughly wet. These consist chiefly of soils having a layer that impedes the downward movement of water or soils of moderately fine texture or fine texture. These soils have a slow rate of water transmission.

Group D. Soils having a very slow infiltration rate (high runoff potential) when thoroughly wet. These consist chiefly of clays that have a high shrink-swell potential, soils that have a high water table, soils that have a claypan or clay layer at or near the surface, and soils that are shallow over nearly impervious material. These soils have a very slow rate of water transmission.

If a soil is assigned to a dual hydrologic group (A/D, B/D, or C/D), the first letter is for drained areas and the second is for undrained areas. Only the soils that in their natural condition are in group D are assigned to dual classes.

¹ Precipitation frequency (PF) estimates in this table are based on frequency analysis of partial duration series (PDS). Numbers in parenthesis are PF estimates at lower and upper bounds of the 90% confidence interval. The probability that precipitation frequency estimates (for a given duration and average recurrence interval) will be greater than the upper bound (or less than the lower bound) is 5%. Estimates at upper bounds are not checked against probable maximum precipitation (PMP) estimates and may be higher than currently valid PMP values. Please refer to NOAA Atlas 14 document for more information.

TYPICAL SECTIONS

SET NO. 08834	DESIGNED TJS	DRAWN TS/JC/DB	CHECKED TLS	SHEET 6 of 68	108 TS01
------------------	-----------------	-------------------	----------------	------------------	-------------

GRADING NOTES

INSIDE ROADWAY & POND LIMIT OF DISTURBANCE

TOPSOIL GENERATED (12" AVG. DEPTH) – 17,840 CY
TOPSOIL REQUIRED (SEE DEPTHS) – 17,851 CY
CUT VOLUME – 20,246 CY
FILL VOLUME – 23,684 CY
NET VOLUME – 3,437 CY OF BORROW
A FILL FACTOR OF 1.2 WAS APPLIED

1,420 CY OF SPOIL WAS ASSUMED FOR ON-SITE WATER AND SEWER UTILITIES.

BORROW PIT

APPROXIMATE DIMENSIONS (100–FT WIDE, 330–FT LONG, 2.5–FT DEEP)

TOPSOIL GENERATED – 1,870 CY
SUBGRADE BORROW GENERATED – 3,370 CY

GENERATED SOIL WILL VARY BASED ON PIT SIZE.
VOLUME VALUES SHOWN ABOVE ARE ANTICIPATED BASED ON THE APPROXIMATE DIMENSIONS.

OTHER NOTES

IT IS ASSUMED THAT ALL NATIVE EXCAVATED MATERIAL IS SUITABLE BORROW MATERIAL

SEE SPECIFICATIONS FOR COMPACTION AND MATERIAL TESTING REQUIREMENTS FOR SUBGRADE MATERIAL

ALL QUANTITIES GIVEN IN THESE SHEETS ARE ESTIMATES TO AID THE CONTRACTOR IN THE BIDDING PROCESS.

CHECK DAMS TO BE PLACED EVERY 25–FT ALONG DRAINAGE CHANNELS WHEN PROFILE SLOPES EXCEED 4.0% AND EVERY 50–FT WHEN PROFILE SLOPES ARE LESS THAN 3.0% UNTIL THE VEGETATION HAS TAKEN.

DESIGN BY: WNM							
REVIEW BY: FPSE							
*IF THIS DRAWING IS PRESENTED IN A FORMAT OTHER THAN "24\" X 36\", THE GRAPHIC SCALE SHOULD BE UTILIZED.							

GENERAL NOTES:

1. EXISTING CONDITIONS SURVEYED BY FOUR POINTS SURVEYING & ENGINEERING. TOPOGRAPHY GENERATED FROM A COMBINATION OF FIELD SURVEY DATA AND 2018 ROUTT COUNTY GIS LIDAR DATA.
2. TOWN OF HAYDEN REVIEW AND APPROVAL IS ONLY FOR GENERAL CONFORMANCE WITH TOWN OF HAYDEN DEVELOPMENT CODE. THE TOWN OF HAYDEN IS NOT RESPONSIBLE FOR THE COMPLETENESS, ACCURACY AND ADEQUACY OF THE DRAWINGS. DESIGN, DIMENSIONS, AND ELEVATIONS SHALL BE CONFIRMED AND CORRELATED AT THE JOB SITE.
3. ONE COPY OF THE APPROVED CONSTRUCTION PLANS AND SPECIFICATIONS SHALL BE KEPT ON THE JOB SITE AT ALL TIMES. PRIOR TO THE START OF CONSTRUCTION, CONTRACTOR TO VERIFY WITH PROJECT ENGINEER THE LATEST REVISION DATE OF THE APPROVED CONSTRUCTION PLANS.
4. CONTRACTOR SHALL VERIFY THE LOCATION OF ALL UTILITIES. CALL THE UTILITY NOTIFICATION CENTER OF COLORADO (UNCC) AT 1-800-932-1987 AND ANY NECESSARY PRIVATE UTILITY TO PERFORM LOCATES PRIOR TO CONDUCTING ANY SITE WORK.
5. ALL INFRASTRUCTURE CONSTRUCTION AND RELATED WORK SHALL CONFORM TO THE TOWN OF HAYDEN STANDARDS AND SPECIFICATIONS, LATEST REVISION.
6. ALL WATER AND SANITARY SEWER CONSTRUCTION AND RELATED WORK SHALL CONFORM TO TOWN OF HAYDEN PUBLIC WORKS STANDARD SPECIFICATIONS, LATEST EDITION.
7. CONTRACTOR SHALL OBTAIN ALL NECESSARY PERMITS AND APPROVALS REQUIRED TO PERFORM THE WORK SUCH AS RIGHT-OF-WAY PERMIT, GRADING AND EXCAVATION PERMIT, CONSTRUCTION DEWATERING PERMIT, STORM WATER QUALITY PERMIT, ARMY CORP OF ENGINEER PERMIT, ETC. IT IS THE CONTRACTOR'S RESPONSIBILITY TO OBTAIN A COPY OF ALL APPLICABLE CODES, LICENSES, SPECIFICATIONS AND STANDARDS NECESSARY TO PERFORM THE WORK, AND BE FAMILIAR WITH THEIR CONTENTS PRIOR TO COMMENCING ANY WORK.
8. PRIOR TO ANY WORK IN THE RIGHT-OF-WAY INCLUDING STREET CUTS, CONTACT THE TOWN OF HAYDEN ROAD AND BRIDGE DEPARTMENT FOR PERMIT REQUIREMENTS.
9. PRIOR TO START OF CONSTRUCTION CONTRACTOR SHALL COORDINATE WITH PROJECT ENGINEER TO IDENTIFY PROJECT INSPECTION AND TESTING REQUIREMENTS. CONTRACTOR SHALL PROVIDE FOR INSPECTIONS AND TESTING AT AN ADEQUATE FREQUENCY FOR THE PROJECT ENGINEER TO DOCUMENT THAT PROJECT IS CONSTRUCTED IN CONFORMANCE WITH THE APPROVED PLANS AND SPECIFICATIONS.
10. CONTRACTOR IS RESPONSIBLE FOR ALL NECESSARY TRAFFIC CONTROL. TRAFFIC CONTROL SHALL BE IN ACCORDANCE WITH THE MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES (MUTCD), LATEST EDITION.
11. CONTRACTOR SHALL PROVIDE ALL NECESSARY TRAFFIC CONTROL (SIGNS, BARRICADES, FLAGMEN, LIGHTS, ETC) IN ACCORDANCE WITH THE MUTCD, CURRENT EDITION.
12. CONTRACTOR MUST SUBMIT A CONSTRUCTION SITE MANAGEMENT PLAN (CSMP) AND EROSION CONTROL PLAN (ECP) FOR REVIEW AND APPROVAL BY THE TOWN OF HAYDEN PRIOR TO START OF CONSTRUCTION. THE CSMP AND ECP MUST BE MAINTAINED ON-SITE AND UPDATED AS NEEDED TO REFLECT CURRENT CONDITIONS.
13. THE FOLLOWING PRIVATE IMPROVEMENTS MAY REQUIRE CONSTRUCTION OBSERVATION : WATER, SEWER, AND STORM SEWER.
14. RECORD DRAWINGS ARE REQUIRED FOR: PUBLIC AND PRIVATE WATER AND SEWER.
15. ALL STORMWATER PIPE OUTFALLS REQUIRE FLARED END SECTIONS.
16. EXISTING ASPHALT PAVEMENT SHALL BE STRAIGHT SAW CUT WHEN ADJOINING WITH NEW ASPHALT PAVEMENT OR WHEN ACCESS TO UNDERGROUND UTILITIES IS REQUIRED. TACK COAT SHALL BE APPLIED TO ALL EXPOSED SURFACES INCLUDING SAW CUTS, POTHOLES, TRENCHES, AND ASPHALT OVERLAY. ASPHALT PATCHES IN THE RIGHT-OF-WAY SHALL BE PER ROUTT COUNTY ROAD AND BRIDGE SPECIFICATIONS.

GRADING:

1. GRADING SHALL OCCUR WITHIN THE PROPERTY LIMITS. WHERE OFF-SITE WORK IS APPROVED, WRITTEN PERMISSION OF THE ADJACENT PROPERTY OWNER MUST BE OBTAINED PRIOR TO ANY OFF-SITE GRADING OR CONSTRUCTION.
2. VEGETATED SLOPES 3:1 AND GREATER REQUIRE SOIL STABILIZATION WITH STRAW BLANKET AT MINIMUM UPON FINAL GRADING AND SEEDING/REVEGETATION.
3. ADJUST RIMS OF CLEANOUTS, MANHOLES, VALVE COVERS TO FINISHED GRADE.

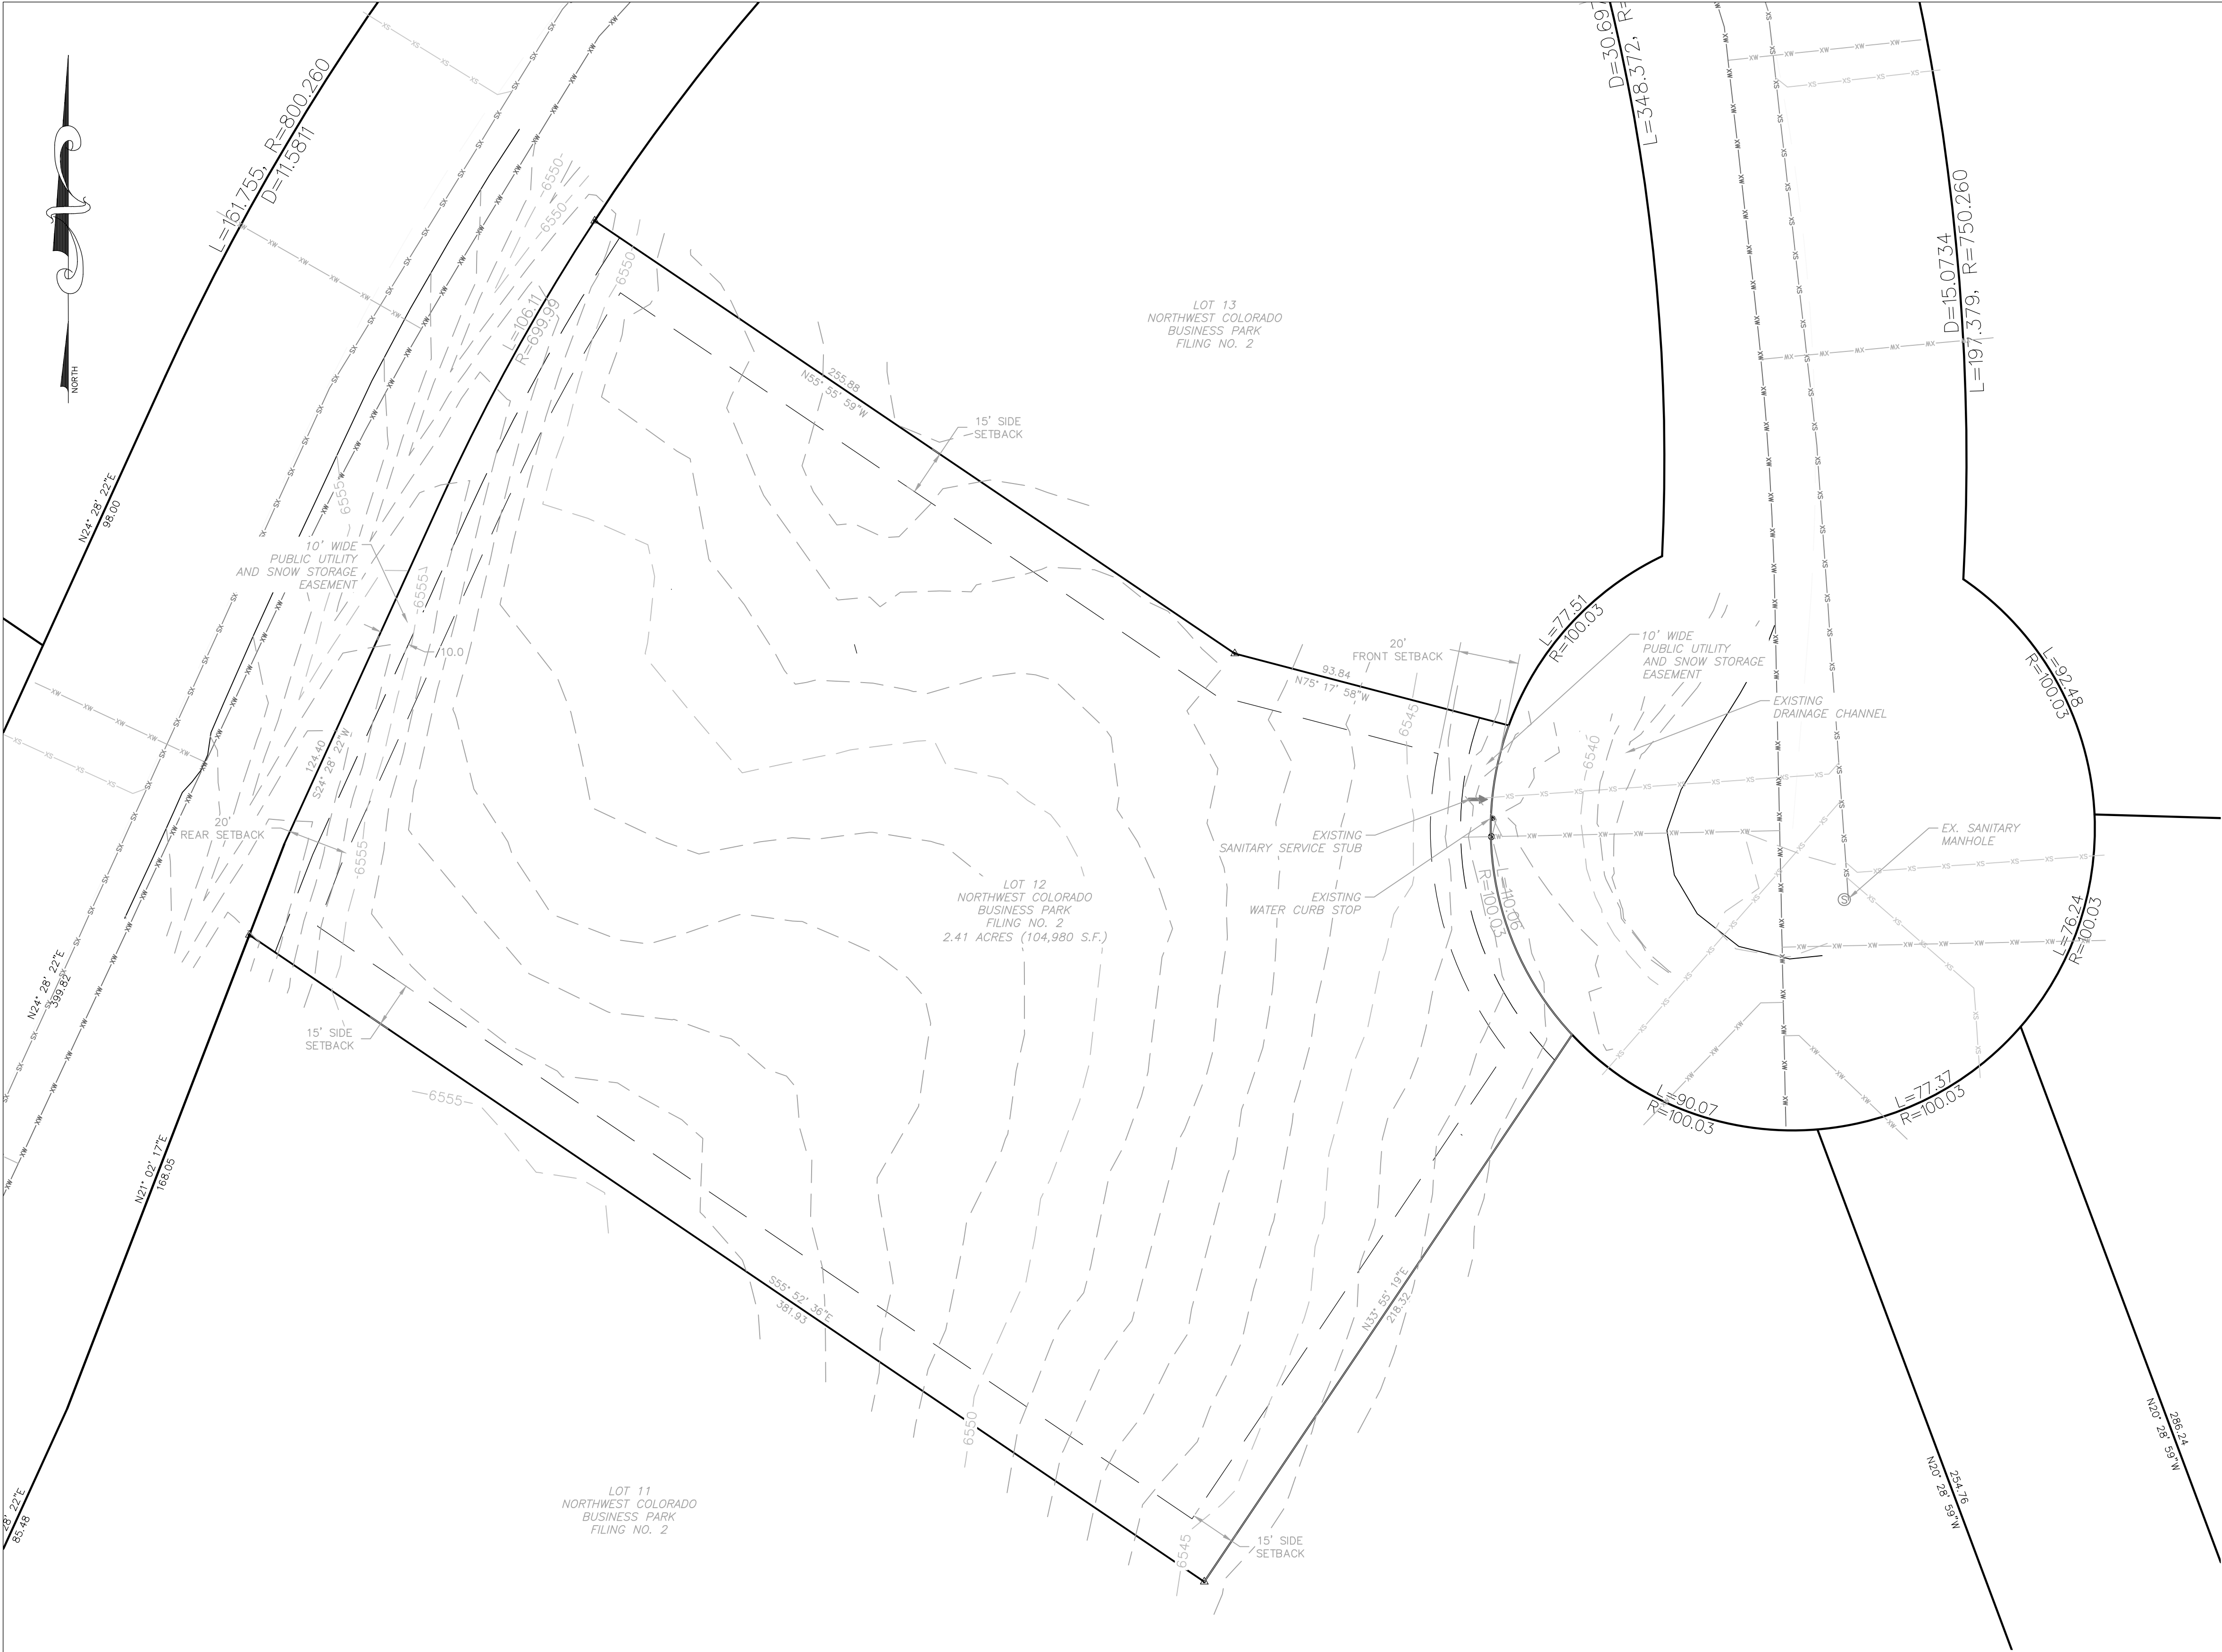

EROSION CONTROL:

1. CONTRACTOR SHALL SUBMIT A CONSTRUCTION SITE MANAGEMENT PLAN (CSMP) TO THE COUNTY PLANNING DEPARTMENT FOR APPROVAL PRIOR TO BUILDING PERMIT ISSUANCE.
2. CONTRACTOR SHALL WORK IN A MANNER THAT MINIMIZES THE POTENTIAL FOR EROSION.
3. CONTRACTOR SHALL BE RESPONSIBLE FOR INSTALLING, INSPECTING, AND MAINTAINING ALL NECESSARY EROSION AND SEDIMENT CONTROL DURING CONSTRUCTION AND REMOVING EROSION CONTROL WHEN PROJECT IS COMPLETE AND FINAL SITE STABILIZATION IS ESTABLISHED. FINAL SITE STABILIZATION IS DEFINED AS 70% OR GREATER VEGETATED COVER ON DISTURBED SOILS.
4. ANY AREA DISTURBED BY CONSTRUCTION AND NOT PAVED OR NATURAL ROCK SURFACE SHALL BE REVEGETATED WITHIN ONE CONSTRUCTION SEASON.

WATER, SEWER AND UTILITY NOTES:

1. EXISTING UTILITY LOCATIONS WERE OBTAINED FROM FIELD LOCATES AND FIELD SURVEYING AND HAVE NOT BEEN VERIFIED WITH ANY ADDITIONAL UNDERGROUND POTHOLING. POTHOLING AND VERIFICATION OF LINE LOCATIONS WILL BE REQUIRED AT ALL EXISTING UTILITY CROSSINGS.
2. MINIMUM SEPARATION BETWEEN PARALLEL WATER AND SEWER MAINS IS TEN (10') FEET. MINIMUM SEPARATION BETWEEN PARALLEL WATER AND SEWER SERVICE LINES IS TEN (10') FEET.
3. ALL WORK SHALL BE IN ACCORDANCE WITH THE REQUIREMENTS OF THE TOWN OF HAYDEN PUBLIC WORKS STANDARDS AND SPECIFICATIONS, LATEST EDITION.
4. MINIMUM COVER FROM FINISHED GRADE TO TOP OF WATER MAIN LINE IS SEVEN (7') FEET UNLESS OTHERWISE NOTED. ALL WATER SERVICE LINES SHALL BE 1 INCH DIAMETER POLY PURE-CORE PIPE UNLESS OTHERWISE NOTED.
5. MINIMUM SEPARATION BETWEEN UTILITY PEDESTALS AND FIRE HYDRANTS IS FIFTEEN (15') FEET. MINIMUM SEPARATION BETWEEN FIRE HYDRANTS, WATER OR SEWER MAINS, AND ENDS OF CULVERTS IS FIVE (5') FEET. MINIMUM SEPARATION BETWEEN WATER AND SEWER SERVICE LINES IS TEN (10') FEET. NO RIP-RAP IS PERMITTED WITHIN TEN (10') FEET OF A SEWER MAIN.
6. VALVES SHALL BE OPERATED BY UTILITY PERSONNEL ONLY.
7. SEWER SERVICES ARE ANTICIPATED TO BE FOUR (4") INCH DIAMETER, SDR 35 PVC, MINIMUM SLOPE OF 2%, UNLESS NOTED OTHERWISE. SEWER SERVICES SHALL BE BURIED A MINIMUM OF FOUR (4') FEET DEEP.
8. WATER SERVICES SHALL BE BURIED A MINIMUM OF SEVEN (7') FEET DEEP.
9. DISINFECTION, BACTERIOLOGICAL, AND HYDROSTATIC TESTING IS REQUIRED FOR THE 4" C300 WATER/FIRE SERVICE LINE.
10. ALL MECHANICAL JOINTS, RESTRAINTS, THRUST BLOCKS AND CROSSING MUST BE OBSERVED BY THE ENGINEER PRIOR TO THE PLACEMENT OF BACKFILL.
11. MECHANICAL RESTRAINTS AND THRUST BLOCKS ARE REQUIRED AT ALL BENDS, TEES, REDUCERS AND DEAD ENDS.
12. ALL FITTINGS ASSOCIATED WITH UTILITY INSTALLATION WILL BE ON-SITE PRIOR TO WATER LINE SHUT DOWN.

NOTES:

1. TOPSOIL STRIPPING VOLUME ASSUMES AN AVERAGE TOPSOIL DEPTH OF 0.5 FEET PER THE GEO-TECHNICAL REPORT. ACTUAL TOPSOIL DEPTH MAY VARY ACROSS THE ENTIRE AREA OF DISTURBANCE.
2. THE TOTAL CUT VOLUME INCLUDES TOPSOIL STRIPPING.
3. A FILL FACTOR OF 1.10 WAS USED FOR CUT-FILL VOLUME CALCULATIONS.
4. FILL VOLUME INCLUDES NATIVE MATERIAL AND ALL IMPORT MATERIALS. (I.E. GRAVEL, ASPHALT, CONCRETE, ETC.)

WATER, SEWER AND UTILITY NOTES:

- EXISTING UTILITY LOCATIONS WERE OBTAINED FROM FIELD LOCATES AND FIELD SURVEYING AND HAVE NOT BEEN VERIFIED WITH ANY ADDITIONAL UNDERGROUND POTHOLING. POTHOLING AND VERIFICATION OF LINE LOCATIONS SHALL BE REQUIRED AT ALL EXISTING UTILITY CROSSINGS.
- MINIMUM SEPARATION BETWEEN PARALLEL WATER AND SEWER MAINS AND SERVICES IS TEN (10) FEET. MINIMUM SEPARATION BETWEEN PARALLEL WATER AND SEWER SERVICE LINES IS TEN (10) FEET.
- ALL WORK SHALL BE IN ACCORDANCE WITH THE REQUIREMENTS OF THE TOWN OF HAYDEN PUBLIC WORKS STANDARDS AND SPECIFICATIONS, LATEST EDITION.
- MINIMUM COVER FROM FINISHED GRADE TO TOP OF WATER MAIN LINE IS SEVEN (7) FEET UNLESS OTHERWISE NOTED. ALL WATER SERVICE LINES SHALL BE 1 INCH DIAMETER POLY PURE-CORE PIPE UNLESS OTHERWISE NOTED.
- MINIMUM SEPARATION BETWEEN UTILITY PEDESTALS AND FIRE HYDRANTS IS FIFTEEN (15) FEET. MINIMUM SEPARATION BETWEEN FIRE HYDRANTS, WATER OR SEWER MAINS, AND ENDS OF CULVERTS IS FIVE (5) FEET. MINIMUM SEPARATION BETWEEN WATER AND SEWER SERVICE LINES IS TEN (10) FEET. NO RIP-RAP IS PERMITTED WITHIN TEN (10) FEET OF A SEWER MAIN.
- VALVES SHALL BE OPERATED BY UTILITY PERSONNEL ONLY.
- SEWER SERVICES ARE ANTICIPATED TO BE FOUR (4") INCH DIAMETER, SDR 35 PVC, MINIMUM SLOPE OF 2%, UNLESS NOTED OTHERWISE. SEWER SERVICES SHALL BE BURIED A MINIMUM OF FOUR (4) FEET DEEP.
- WATER SERVICES SHALL BE BURIED A MINIMUM OF SEVEN (7) FEET DEEP.
- DISINFECTION, BACTERIOLOGICAL, AND HYDROSTATIC TESTING IS REQUIRED FOR THE 4" C900 WATER/FIRE SERVICE LINE.
- ALL MECHANICAL JOINTS, RESTRAINTS, THRUST BLOCKS AND CROSSING MUST BE OBSERVED BY THE ENGINEER PRIOR TO THE PLACEMENT OF BACKFILL.
- MECHANICAL RESTRAINTS AND THRUST BLOCKS ARE REQUIRED AT ALL BENDS, TEES, REDUCERS AND DEAD ENDS.
- ALL FITTINGS ASSOCIATED WITH UTILITY INSTALLATION WILL BE ON-SITE PRIOR TO WATER LINE SHUT DOWN.

Condition #2: New Water Main Below New Sewer Main

NOTES:

- A GUIDE FOR DESIRABLE TRENCH WIDTH (W) AT THE TOP OF THE PIPE SHALL BE THE NOMINAL DIAMETER OF THE PIPE PLUS 12-INCHES ON EACH SIDE OF THE PIPE.
- A SECOND PAVEMENT CUT SHALL BE REQUIRED PRIOR TO PLACING THE ASPHALT PATCH. REMOVE ALL IRREGULAR ASPHALT EDGES A MINIMUM OF 12-INCHES BEYOND ANY DAMAGED SURFACE TO A CLEAN VERTICAL EDGE. APPLY A BITUMINOUS TACK COAT PRIOR TO PLACING THE ASPHALT PATCH.
- THE ASPHALT PATCH SHALL BE PLACED IN TWO 2-INCH LIFTS AND ROLLER COMPACTED TO MATCH THE ADJACENT ASPHALT EDGES.
- SUB-BASE MATERIALS SHALL CONSIST OF 4-INCHES OF ROAD BASE ON 8-INCHES OF PIT-RUN. COMPACTION REQUIREMENTS SHALL EXCEED 95% MAXIMUM DRY DENSITY AS DETERMINED BY THE AASHTO T-180 TEST PROCEDURES.

SPECIAL WARRANTY DEED

THIS SPECIAL WARRANTY DEED, dated 18th day of December, 2024, is made between Town of Hayden, a Colorado Home Rule Municipality ("Grantor"), duly organized and existing under the laws of the State of Colorado

AND

ELD Hayden LLC, a Colorado limited liability company ("Grantee"), duly organized and existing under the laws of the State of Colorado, whose legal address is 23750 Silverado Road, Oak Creek CO 80467

WITNESS, that the Grantor(s), for and in consideration of FOUR HUNDRED TWENTY FIVE THOUSAND AND 00/100 DOLLARS (\$425,000.00) and other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, has granted, bargained, sold and conveyed, and by these presents does grant, bargain, sell, and convey unto the Grantee, IN SEVERALTY and the heirs, successors and assigns of the Grantee forever, all the real property, together with fixtures and improvements located thereon, if any, situate, lying and being in the County of Routt and State of Colorado, described as follows:

See Legal Description described as Exhibit "A" attached hereto and by this reference incorporated herein

ALSO KNOWN AS: 631 Wings Way, Hayden, CO 81639

TOGETHER WITH, all and singular the hereditaments and appurtenances thereunto belonging, or in anywise appertaining, and the reversion and reversions, remainder and remainders, rents, issues and profits thereof, and all the estate, right, title, interest, claim and demand whatsoever of the Grantor(s), either in law or equity, of, in and to the above-bargained premises, with the hereditaments and appurtenances.

TO HAVE AND TO HOLD the said premises above bargained and described, with the appurtenances, unto the Grantee, and the heirs, successors and assigns of the Grantee forever. The Grantor, for the Grantor and the heirs, successors and assigns of the Grantor, warrants title to the same against all persons claiming by, through or under the Grantor, subject to the Statutory Exceptions

EXECUTED AND DELIVERED by Grantor on the date first set forth above.

Town of Hayden, a Colorado Home Rule Municipality

By Mathew M. Mendisco, Town Manager

State of : Colorado }
County Of Routt } ss.

The foregoing instrument was subscribed, sworn to, and acknowledged before me this 18th day of December, 2024 by Mathew M. Mendisco, Town Manager of Town of Hayden, a Colorado Home Rule Municipality.

My Commission expires:

Witness my hand and official seal.

DEED OF TRUST
(With Future Advance Clause)

DATE AND PARTIES. The date of this Deed Of Trust (Security Instrument) is December 18, 2024. The parties and their addresses are:

GRANTOR:

ELD HAYDEN LLC
A Colorado Limited Liability Company
23750 SILVERADO RD
OAK CREEK, CO 80467-8658

TRUSTEE:

PUBLIC TRUSTEE OF ROUTT COUNTY, COLORADO

LENDER:

MOUNTAIN VALLEY BANK
Organized and existing under the laws of Colorado
2220 Curve Plaza
PO Box 774766
Steamboat Springs, CO 80477

1. DEFINITIONS. For the purposes of this document, the following term has the following meaning.

A. Loan. "Loan" refers to this transaction generally, including obligations and duties arising from the terms of all documents prepared or submitted for this transaction.

2. CONVEYANCE. For good and valuable consideration, the receipt and sufficiency of which is acknowledged, and to secure the Secured Debts and Grantor's performance under this Security Instrument, Grantor does hereby irrevocably grant, convey and sell to Trustee, in trust for the benefit of Lender, with power of sale, the following described property:

See Attached "Exhibit A"

The property is located in ROUTT County at 631 WINGS WAY, HAYDEN, Colorado 81639.

Together with all rights, easements, appurtenances, royalties, mineral rights, oil and gas rights, crops, timber including timber to be cut now or at any time in the future, all diversion payments or third party payments made to crop producers, all water and riparian rights, wells, ditches, reservoirs and water stock and all existing and future improvements, structures, fixtures, and replacements that may now, or at any time in the future, be part of the real estate described (all referred to as Property). This Security Instrument will remain in effect until the Secured Debts and all underlying agreements have been terminated in writing by Lender.

3. MAXIMUM OBLIGATION LIMIT. The total principal amount secured by this Security Instrument at any one time and from time to time will not exceed \$318,750.00. Any limitation of amount does not include interest and other fees and charges validly made pursuant to this Security Instrument. Also, this limitation does not apply to advances made under the terms of this Security Instrument to protect Lender's security and to perform any of the covenants contained in this Security Instrument.

Wolters Kluwer Financial Services, Inc.©1996, 2024 Bankers Systems™

Initials _____
Page 1

4. SECURED DEBTS AND FUTURE ADVANCES. The term "Secured Debts" includes and this Security Instrument will secure each of the following:

A. Specific Debts. The following debts and all extensions, renewals, refinancings, modifications and replacements. A promissory note or other agreement, dated December 18, 2024, from Grantor to Lender, with a loan amount of \$318,750.00 and maturing on December 18, 2039.

B. Future Advances. All future advances from Lender to Grantor under the Specific Debts executed by Grantor in favor of Lender after this Security Instrument. If more than one person signs this Security Instrument, each agrees that this Security Instrument will secure all future advances that are given to Grantor either individually or with others who may not sign this Security Instrument. All future advances are secured by this Security Instrument even though all or part may not yet be advanced. All future advances are secured as if made on the date of this Security Instrument. Nothing in this Security Instrument shall constitute a commitment to make additional or future advances in any amount. Any such commitment must be agreed to in a separate writing.

C. Sums Advanced. All sums advanced and expenses incurred by Lender under the terms of this Security Instrument.

5. PAYMENTS. Grantor agrees that all payments under the Secured Debts will be paid when due and in accordance with the terms of the Secured Debts and this Security Instrument.

6. WARRANTY OF TITLE. Grantor warrants that Grantor is or will be lawfully seized of the estate conveyed by this Security Instrument and has the right to irrevocably grant, convey and sell the Property to Trustee, in trust, with power of sale. Grantor also warrants that the Property is unencumbered, except for encumbrances of record.

7. PRIOR SECURITY INTERESTS. With regard to any other mortgage, deed of trust, security agreement or other lien document that created a prior security interest or encumbrance on the Property, Grantor agrees:

A. To make all payments when due and to perform or comply with all covenants.

B. To promptly deliver to Lender any notices that Grantor receives from the holder.

C. Not to allow any modification or extension of, nor to request any future advances under any note or agreement secured by the lien document without Lender's prior written consent.

8. CLAIMS AGAINST TITLE. Grantor will pay all taxes, assessments, liens, encumbrances, lease payments, ground rents, utilities, and other charges relating to the Property when due. Lender may require Grantor to provide to Lender copies of all notices that such amounts are due and the receipts evidencing Grantor's payment. Grantor will defend title to the Property against any claims that would impair the lien of this Security Instrument. Grantor agrees to assign to Lender, as requested by Lender, any rights, claims or defenses Grantor may have against parties who supply labor or materials to maintain or improve the Property.

9. DUE ON SALE OR ENCUMBRANCE. Lender may, at its option, declare the entire balance of the Secured Debt to be immediately due and payable upon the creation of, or contract for the creation of, any lien, encumbrance, transfer or sale of all or any part of the Property. This right is subject to the restrictions imposed by federal law, as applicable.

10. TRANSFER OF AN INTEREST IN THE GRANTOR. If Grantor is an entity other than a natural person (such as a corporation, partnership, limited liability company or other organization), Lender may demand immediate payment if:

A. A beneficial interest in Grantor is sold or transferred.

B. There is a change in either the identity or number of members of a partnership or similar entity.

C. There is a change in ownership of more than 25 percent of the voting stock of a corporation, partnership, limited liability company or similar entity.

However, Lender may not demand payment in the above situations if it is prohibited by law as of the date of this Security Instrument.

11. WARRANTIES AND REPRESENTATIONS. Grantor makes to Lender the following warranties and representations which will continue as long as this Security Instrument is in effect:

A. Power. Grantor is duly organized, and validly existing and in good standing in all jurisdictions in which Grantor operates. Grantor has the power and authority to enter into this transaction and to carry on Grantor's business or activity as it is now being conducted and, as applicable, is qualified to do so in each jurisdiction in which Grantor operates.

B. Authority. The execution, delivery and performance of this Security Instrument and the obligation evidenced by this Security Instrument are within Grantor's powers, have been duly authorized, have received all necessary governmental approval, will not violate any provision of law, or order of court or governmental agency, and will not violate any agreement to which Grantor is a party or to which Grantor is or any of Grantor's property is subject.

C. Name and Place of Business. Other than previously disclosed in writing to Lender, Grantor has not changed Grantor's name or principal place of business within the last 10 years and has not used any other trade or fictitious name. Without Lender's prior written consent, Grantor does not and will not use any other name and will preserve Grantor's existing name, trade names and franchises.

12. PROPERTY CONDITION, ALTERATIONS, INSPECTION, VALUATION AND APPRAISAL. Grantor will keep the Property in good condition and make all repairs that are reasonably necessary. Grantor will not commit or allow any waste, impairment, or deterioration of the Property. Grantor will keep the Property free of noxious weeds and grasses. Grantor agrees that the nature of the occupancy and use will not substantially change without Lender's prior written consent. Grantor will not permit any change in any license, restrictive covenant or easement without Lender's prior written consent. Grantor will notify Lender of all demands, proceedings, claims, and actions against Grantor, and of any loss or damage to the Property.

No portion of the Property will be removed, demolished or materially altered without Lender's prior written consent except that Grantor has the right to remove items of personal property comprising a part of the Property that become worn or obsolete, provided that such personal property is replaced with other personal property at least equal in value to the replaced personal property, free from any title retention device, security agreement or other encumbrance. Such replacement of personal property will be deemed subject to the security interest created by this Security Instrument. Grantor will not partition or subdivide the Property without Lender's prior written consent.

Lender or Lender's agents may, at Lender's option, enter the Property at any reasonable time and frequency for the purpose of inspecting, valuating, or appraising the Property. Lender will give Grantor notice at the time of or before an on-site inspection, valuation, or appraisal for on-going due diligence or otherwise specifying a reasonable purpose. Any inspection, valuation or appraisal of the Property will be entirely for Lender's benefit and Grantor will in no way rely on Lender's inspection, valuation or appraisal for its own purpose, except as otherwise provided by law.

13. AUTHORITY TO PERFORM. If Grantor fails to perform any duty or any of the covenants contained in this Security Instrument, Lender may, without notice, perform or cause them to be performed. Grantor appoints Lender as attorney in fact to sign Grantor's name or pay any amount necessary for performance. Lender's right to perform for Grantor will not create an obligation to perform, and Lender's failure to perform will not preclude Lender from exercising any of Lender's other rights under the law or this Security Instrument. If any construction on the Property is discontinued or not carried on in a reasonable manner, Lender may take all steps necessary to protect Lender's security interest in the Property, including completion of the construction.

14. ASSIGNMENT OF LEASES AND RENTS. Grantor irrevocably assigns, grants, conveys to Lender as additional security all the right, title and interest in the following (Property).

A. Existing or future leases, subleases, licenses, guaranties and any other written or verbal agreements for the use and occupancy of the Property, including but not limited to any extensions, renewals, modifications or replacements (Leases).

B. Rents, issues and profits, including but not limited to security deposits, minimum rents, percentage rents, additional rents, common area maintenance charges, parking charges, real estate taxes, other applicable taxes, insurance premium contributions, liquidated damages following default, cancellation premiums, "loss of rents" insurance, guest receipts, revenues, royalties, proceeds, bonuses, accounts, contract rights, general intangibles, and all rights and claims which Grantor may have that in any way pertain to or are on account of the use or occupancy of the whole or any part of the Property (Rents).

In the event any item listed as Leases or Rents is determined to be personal property, this Assignment will also be regarded as a security agreement. Grantor will promptly provide Lender with copies of the Leases and will certify these Leases are true and correct copies. The existing Leases will be provided on execution of the Assignment, and all future Leases and any other information with respect to these Leases will be provided immediately after they are executed. Grantor may collect, receive, enjoy and use the Rents so long as Grantor is not in default. Grantor will not collect in advance any Rents due in future lease periods, unless Grantor first obtains Lender's written consent. Upon default, Grantor will receive any Rents in trust for Lender and Grantor will not commingle the Rents with any other funds. When Lender so directs, Grantor will endorse and

deliver any payments of Rents from the Property to Lender. Amounts collected will be applied at Lender's discretion to the Secured Debts, the costs of managing, protecting, valuating, appraising and preserving the Property, and other necessary expenses. Grantor agrees that this Security Instrument is immediately effective between Grantor and Lender. This Security Instrument will remain effective during any statutory redemption period until the Secured Debts are satisfied. Unless otherwise prohibited or prescribed by state law, Grantor agrees that Lender may take actual possession of the Property without the necessity of commencing any legal action or proceeding. Grantor agrees that actual possession of the Property is deemed to occur when Lender notifies Grantor of Grantor's default and demands that Grantor and Grantor's tenants pay all Rents due or to become due directly to Lender. Immediately after Lender gives Grantor the notice of default, Grantor agrees that either Lender or Grantor may immediately notify the tenants and demand that all future Rents be paid directly to Lender. As long as this Assignment is in effect, Grantor warrants and represents that no default exists under the Leases, and the parties subject to the Leases have not violated any applicable law on leases, licenses and landlords and tenants. Grantor, at its sole cost and expense, will keep, observe and perform, and require all other parties to the Leases to comply with the Leases and any applicable law. If Grantor or any party to the Lease defaults or fails to observe any applicable law, Grantor will promptly notify Lender. If Grantor neglects or refuses to enforce compliance with the terms of the Leases, then Lender may, at Lender's option, enforce compliance. Grantor will not sublet, modify, extend, cancel, or otherwise alter the Leases, or accept the surrender of the Property covered by the Leases (unless the Leases so require) without Lender's consent. Grantor will not assign, compromise, subordinate or encumber the Leases and Rents without Lender's prior written consent. Lender does not assume or become liable for the Property's maintenance, depreciation, or other losses or damages when Lender acts to manage, protect or preserve the Property, except for losses and damages due to Lender's gross negligence or intentional torts. Otherwise, Grantor will indemnify Lender and hold Lender harmless for all liability, loss or damage that Lender may incur when Lender opts to exercise any of its remedies against any party obligated under the Leases.

15. DEFAULT. Grantor will be in default if any of the following events (known separately and collectively as an Event of Default) occur:

- A. Payments.** Grantor fails to make a payment in full when due.
- B. Insolvency or Bankruptcy.** The death, dissolution or insolvency of, appointment of a receiver by or on behalf of, application of any debtor relief law, the assignment for the benefit of creditors by or on behalf of, the voluntary or involuntary termination of existence by, or the commencement of any proceeding under any present or future federal or state insolvency, bankruptcy, reorganization, composition or debtor relief law by or against Grantor, Borrower, or any co-signer, endorser, surety or guarantor of this Security Instrument or any other obligations Borrower has with Lender.
- C. Business Termination.** Grantor merges, dissolves, reorganizes, ends its business or existence, or a partner or majority owner dies or is declared legally incompetent.
- D. Failure to Perform.** Grantor fails to perform any condition or to keep any promise or covenant of this Security Instrument.
- E. Other Documents.** A default occurs under the terms of any other document relating to the Secured Debts.
- F. Other Agreements.** Grantor is in default on any other debt or agreement Grantor has with Lender.
- G. Misrepresentation.** Grantor makes any verbal or written statement or provides any financial information that is untrue, inaccurate, or conceals a material fact at the time it is made or provided.
- H. Judgment.** Grantor fails to satisfy or appeal any judgment against Grantor.
- I. Forfeiture.** The Property is used in a manner or for a purpose that threatens confiscation by a legal authority.
- J. Name Change.** Grantor changes Grantor's name or assumes an additional name without notifying Lender before making such a change.
- K. Property Transfer.** Grantor transfers all or a substantial part of Grantor's money or property. This condition of default, as it relates to the transfer of the Property, is subject to the restrictions contained in the DUE ON SALE section.
- L. Property Value.** Lender determines in good faith that the value of the Property has declined or is impaired.
- M. Material Change.** Without first notifying Lender, there is a material change in Grantor's business, including ownership, management, and financial conditions.
- N. Insecurity.** Lender determines in good faith that a material adverse change has occurred in Grantor's financial condition from the conditions set forth in Grantor's most recent financial statement before the date of this Security Instrument or that the prospect for payment or performance of the Secured Debts is impaired for any reason.

O. Death or Incompetency of a Guarantor. Any guarantor of payment of the Secured Debts dies or is declared legally incompetent.

P. Failure to Comply with Laws. Grantor fails to comply with all applicable laws, statutes, ordinances and governmental rules, regulations and orders to which Grantor is subject or which apply to Grantor's business, property or assets.

Q. Fraud. Grantor engages in fraud or material misrepresentation in connection with this transaction.

16. REMEDIES. On or after the occurrence of an Event of Default, Lender may use any and all remedies Lender has under state or federal law or in any document relating to the Secured Debts, including, without limitation, the power to sell the Property or foreclose on installments without acceleration. Any amounts advanced on Grantor's behalf will be immediately due and may be added to the balance owing under the Secured Debts. Lender may make a claim for any and all insurance benefits or refunds that may be available on Grantor's default.

Subject to any right to cure, required time schedules or any other notice rights Grantor may have under federal and state law, Lender may make all or any part of the amount owing by the terms of the Secured Debts immediately due and foreclose this Security Instrument in a manner provided by law upon the occurrence of Grantor's default or anytime thereafter.

If there is an occurrence of an Event of Default, Trustee will, in addition to any other permitted remedy, at the request of Lender, advertise and sell the Property as a whole or in separate parcels at public auction to the highest bidder for cash. Trustee will give notice of sale including the time, terms and place of sale and a description of the Property to be sold as required by the applicable law in effect at the time of the proposed sale.

Upon the sale of the Property, to the extent not prohibited by law, and at such time purchaser is legally entitled to it, Trustee shall make and deliver a deed to the Property sold which conveys title to the purchaser, and after first paying all fees, charges and costs, shall pay to Lender all monies advanced for repairs, taxes, insurance liens, assessments and prior encumbrances and interest thereon, and the principal and interest on the Secured Debt, paying the surplus, if any, to persons legally entitled to it. Lender may purchase the Property. The recitals in any deed of conveyance shall be prima facie evidence of the facts set forth therein.

All remedies are distinct, cumulative and not exclusive, and Lender is entitled to all remedies provided at law or equity, whether or not expressly set forth. The acceptance by Lender of any sum in payment or partial payment on the Secured Debts after the balance is due or is accelerated or after foreclosure proceedings are filed will not constitute a waiver of Lender's right to require full and complete cure of any existing default. By not exercising any remedy, Lender does not waive Lender's right to later consider the event a default if it continues or happens again.

17. COLLECTION EXPENSES AND ATTORNEYS' FEES. On or after the occurrence of an Event of Default, to the extent permitted by law, Grantor agrees to pay all expenses of collection, enforcement, valuation, appraisal or protection of Lender's rights and remedies under this Security Instrument or any other document relating to the Secured Debts. Grantor agrees to pay expenses for Lender to inspect, value, appraise and preserve the Property and for any recordation costs of releasing the Property from this Security Instrument. Expenses include, but are not limited to, reasonable attorneys' fees after default and referral to an attorney who is not a salaried employee of Lender, court costs, and other collection costs. These expenses are due and payable immediately. If not paid immediately, these expenses will bear interest from the date of payment until paid in full at the highest interest rate in effect as provided for in the terms of the Secured Debts. In addition, to the extent permitted by the United States Bankruptcy Code, Grantor agrees to pay the reasonable attorneys' fees incurred by Lender to protect Lender's rights and interests in connection with any bankruptcy proceedings initiated by or against Grantor.

18. ENVIRONMENTAL LAWS AND HAZARDOUS SUBSTANCES. As used in this section, (1) Environmental Law means, without limitation, the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA, 42 U.S.C. 9601 et seq.), all other federal, state and local laws, regulations, ordinances, court orders, attorney general opinions or interpretive letters concerning the public health, safety, welfare, environment or a hazardous substance; and (2) Hazardous Substance means any toxic, radioactive or hazardous material, waste, pollutant or contaminant which has characteristics which render the substance dangerous or potentially dangerous to the public health, safety, welfare or environment. The term includes, without limitation, any substances defined as "hazardous material," "toxic substance," "hazardous waste," "hazardous substance," or "regulated substance" under any Environmental Law.

Grantor represents, warrants and agrees that:

A. Except as previously disclosed and acknowledged in writing to Lender, no Hazardous Substance has been, is, or will be located, transported, manufactured, treated, refined, or handled by any person on, under or about the Property, except in the ordinary course of business and in strict compliance with all applicable Environmental Law.

B. Except as previously disclosed and acknowledged in writing to Lender, Grantor has not and will not cause, contribute to, or permit the release of any Hazardous Substance on the Property.

C. Grantor will immediately notify Lender if (1) a release or threatened release of Hazardous Substance occurs on, under or about the Property or migrates or threatens to migrate from nearby property; or (2) there is a violation of any Environmental Law concerning the Property. In such an event, Grantor will take all necessary remedial action in accordance with Environmental Law.

D. Except as previously disclosed and acknowledged in writing to Lender, Grantor has no knowledge of or reason to believe there is any pending or threatened investigation, claim, or proceeding of any kind relating to (1) any Hazardous Substance located on, under or about the Property; or (2) any violation by Grantor or any tenant of any Environmental Law. Grantor will immediately notify Lender in writing as soon as Grantor has reason to believe there is any such pending or threatened investigation, claim, or proceeding. In such an event, Lender has the right, but not the obligation, to participate in any such proceeding including the right to receive copies of any documents relating to such proceedings.

E. Except as previously disclosed and acknowledged in writing to Lender, Grantor and every tenant have been, are and will remain in full compliance with any applicable Environmental Law.

F. Except as previously disclosed and acknowledged in writing to Lender, there are no underground storage tanks, private dumps or open wells located on or under the Property and no such tank, dump or well will be added unless Lender first consents in writing.

G. Grantor will regularly inspect the Property, monitor the activities and operations on the Property, and confirm that all permits, licenses or approvals required by any applicable Environmental Law are obtained and complied with.

H. Grantor will permit, or cause any tenant to permit, Lender or Lender's agent to enter and inspect the Property and review all records at any reasonable time to determine (1) the existence, location and nature of any Hazardous Substance on, under or about the Property; (2) the existence, location, nature, and magnitude of any Hazardous Substance that has been released on, under or about the Property; or (3) whether or not Grantor and any tenant are in compliance with applicable Environmental Law.

I. Upon Lender's request and at any time, Grantor agrees, at Grantor's expense, to engage a qualified environmental engineer to prepare an environmental audit of the Property and to submit the results of such audit to Lender. The choice of the environmental engineer who will perform such audit is subject to Lender's approval.

J. Lender has the right, but not the obligation, to perform any of Grantor's obligations under this section at Grantor's expense.

K. As a consequence of any breach of any representation, warranty or promise made in this section, (1) Grantor will indemnify and hold Lender and Lender's successors or assigns harmless from and against all losses, claims, demands, liabilities, damages, cleanup, response and remediation costs, penalties and expenses, including without limitation all costs of litigation and attorneys' fees, which Lender and Lender's successors or assigns may sustain; and (2) at Lender's discretion, Lender may release this Security Instrument and in return Grantor will provide Lender with collateral of at least equal value to the Property without prejudice to any of Lender's rights under this Security Instrument.

L. Notwithstanding any of the language contained in this Security Instrument to the contrary, the terms of this section will survive any foreclosure or satisfaction of this Security Instrument regardless of any passage of title to Lender or any disposition by Lender of any or all of the Property. Any claims and defenses to the contrary are hereby waived.

19. CONDEMNATION. Grantor will give Lender prompt notice of any pending or threatened action by private or public entities to purchase or take any or all of the Property through condemnation, eminent domain, or any other means. Grantor authorizes Lender to intervene in Grantor's name in any of the above described actions or claims. Grantor assigns to Lender the proceeds of any award or claim for damages connected with a condemnation or other taking of all or any part of the Property. Such proceeds will be considered payments and will be applied as provided in this Security Instrument. This assignment of proceeds is subject to the terms of any prior mortgage, deed of trust, security agreement or other lien document.

20. ESCROW FOR TAXES AND INSURANCE. Grantor will not be required to pay to Lender funds for taxes and insurance in escrow.

21. WAIVERS. Except to the extent prohibited by law, Grantor waives all appraisal and homestead exemption rights relating to the Property.

22. USE OF PROPERTY. Grantor shall not use or occupy the Property in any manner that would constitute a violation of any state and/or federal laws involving controlled substances, even in a jurisdiction that allows such use by state or local law or ordinance. In the event that Grantor becomes aware of such a violation, Grantor shall take all actions allowed by law to terminate the violating activity.

In addition to all other indemnifications, obligations, rights and remedies contained herein, if the Lender and/or its respective directors, officers, employees, agents and attorneys (each an "Indemnitee") is made a party defendant to any litigation or any claim is threatened or brought against such Indemnitee concerning this Security Instrument or the related property or any part thereof or therein or concerning the construction, maintenance, operation or the occupancy or use of such property, then the Grantor shall (to the extent permitted by applicable law) indemnify, defend and hold each Indemnitee harmless from and against all liability by reason of said litigation or claims, including attorneys' fees and expenses incurred by such Indemnitee in connection with any such litigation or claim, whether or not any such litigation or claim is prosecuted to judgment. To the extent permitted by applicable law, the within indemnification shall survive payment of the Secured Debt, and/or any termination, release or discharge executed by the Lender in favor of the Grantor.

Violation of this provision is a material breach of this Security Instrument and thereby constitutes a default under the terms and provisions of this Security Instrument.

23. APPLICABLE LAW. This Security Instrument is governed by the laws of Colorado, the United States of America, and to the extent required, by the laws of the jurisdiction where the Property is located, except to the extent such state laws are preempted by federal law.

24. JOINT AND SEVERAL LIABILITY AND SUCCESSORS. Each Grantor's obligations under this Security Instrument are independent of the obligations of any other Grantor. Lender may sue each Grantor severally or together with any other Grantor. Lender may release any part of the Property and Grantor will still be obligated under this Security Instrument for the remaining Property. Grantor agrees that Lender and any party to this Security Instrument may extend, modify or make any change in the terms of this Security Instrument or any evidence of debt without Grantor's consent. Such a change will not release Grantor from the terms of this Security Instrument. The duties and benefits of this Security Instrument will bind and benefit the successors and assigns of Lender and Grantor.

25. AMENDMENT, INTEGRATION AND SEVERABILITY. This Security Instrument may not be amended or modified by oral agreement. No amendment or modification of this Security Instrument is effective unless made in writing. This Security Instrument and any other documents relating to the Secured Debts are the complete and final expression of the agreement. If any provision of this Security Instrument is unenforceable, then the unenforceable provision will be severed and the remaining provisions will still be enforceable.

26. INTERPRETATION. Whenever used, the singular includes the plural and the plural includes the singular. The section headings are for convenience only and are not to be used to interpret or define the terms of this Security Instrument.

27. NOTICE, ADDITIONAL DOCUMENTS AND RECORDING FEES. Unless otherwise required by law, any notice will be given by delivering it or mailing it by first class mail or via a nationally recognized overnight courier to the appropriate party's address listed in the DATE AND PARTIES section, or to any other address designated in writing. Notice to one Grantor will be deemed to be notice to all Grantors. Grantor will inform Lender in writing of any change in Grantor's name, address or other application information. Grantor will provide Lender any other, correct and complete information Lender requests to effectively mortgage or convey the Property. Grantor agrees to pay all expenses, charges and taxes in connection with the preparation and recording of this Security Instrument. Grantor agrees to sign, deliver, and file any additional documents or certifications that Lender may consider necessary to perfect, continue, and preserve Grantor's obligations under this Security Instrument and to confirm Lender's lien status on any Property, and Grantor agrees to pay all expenses, charges and taxes in connection with the preparation and recording thereof. Time is of the essence.

SIGNATURES. By signing, Grantor agrees to the terms and covenants contained in this Security Instrument. Grantor also acknowledges receipt of a copy of this Security Instrument.

Hi Tegan,

Real preliminary at this point for me to review, so just standard comments below.

The Town of Hayden Building Code Ordinance can be found at [Hayden Building Code Ordinance](#)

The site plans show three buildings, with a total of 21 parking spots total, you do have one ADA parking spot showing which meets Table 1106.1. However this could only be accepted if all buildings are owned and operated by the same business and all buildings were constructed at the same time, otherwise each building would need an ADA parking spot provided. Also if we do end up with a single ADA spot, please remember grades have to support an ADA route to the other two buildings from this designated ADA route that has to be shown on the plans.

Thanks Tegan,

Todd

Hi,

Attached is a referral request for a Conditional Use Permit application for a the [Explorist.life](#) business location containing three warehouse structures, RV parking with limited onsite employee occupancy and product testing, and all associated infrastructure and amenities. The [Explorist.life](#) business specializes in providing parts, components, and educational resources for mobile, marine, and off-grid electrical systems.

Please provide any comments on this application by May 1st.

Thanks,

Tegan
